

PRESS RELEASE

Residents Wow in Leeds with their Knowledge of Neighbourhood Agreements

Five local residents and members of the TNT from the NDC area went to Leeds recently to spread their expertise on Neighbourhood Agreements.

The Leeds Conference was about community empowerment which directly links with the Government's White Paper on Localism; and the five were invited to share their first hand experiences of delivering localism at a grass roots level.

Three of the five spoke to a packed over-subscribed workshop on their knowledge as residents on developing Neighbourhood Agreements.

Partners and conference goers alike have hailed Oldham's environmental Agreement, Green and Clean as one of the best examples of a community led agreement they had seen.

Since their attendance at the two conferences the TNT have received a number of emails and phone calls congratulating them on spreading their good news.

However, it wasn't all work for the Hathershaw and Fitton Hill five. They were invited to a reception afterwards and this gave them the opportunity to meet other residents and service providers and share their ideas and experiences.
