

# **Oldham Local Development Framework**

**Call For Sites  
Public Schedule of Representations  
and Responses**

**February 2009**

---

<b>1</b>	<b>Introduction</b>	<b>3</b>
<b>2</b>	<b>Schedule of Representations and Responses</b>	<b>6</b>

# 1 Introduction

- 1.1** The “Call for Sites” consultation was undertaken during March-April 2008. It was part of preparing the new Local Development Framework, or LDF for short. The LDF will be a new style development plan for Oldham. It will be made up of several documents.
- 1.2** “Call for Sites” was an opportunity for the community and stakeholders to identify land for different types of uses. The Council wanted views about sites that could be developed, sites that should be protected and sites that could be put to better use.
- 1.3** This report sets out a summary of the representations that were received. Alongside are initial responses to indicate, if appropriate, how the Council will make use of the comments in taking forward the LDF.
- 1.4** Over 700 responses were submitted. These are summarised in Section 2 of this report, along with the Council’s response to them. For the vast majority of responses it was clear as to whether a site was being put forward for development or for protection or for better use, however in a limited number of cases the preference was not clearly stated and therefore the Council has had to interpret the respondent’s preference.
- 1.5** Over 300 of the responses were based on a standard postcard about Cowlishaw, which is currently designated as Other Protected Open Land (OPOL) in the Unitary Development Plan. The majority of respondents wanted the OPOL to be protected from development.
- 1.6** It should be noted that a number of representations sought to see development in the Green Belt. The position in relation to Green Belt is set out in the North West of England Plan Regional Spatial Strategy to 2021 (RSS) which was published in September 2008. RSS, in Policy RDF4, states that *“there is no need for any exceptional substantial strategic change to Green Belt”* in Greater Manchester before 2011. After 2011 the presumption will be against exceptional substantial strategic change to the Greater Manchester Green Belt. The Regional Planning Body, together with relevant stakeholders, would undertake strategic studies to investigate the need for change, and options for implementation, after this date.
- 1.7** Sites that were put forward for housing development were also considered as part of the Council’s Strategic Housing Land Availability Assessment. This will be published separately in early 2009.
- 1.8** Site plans that were submitted as part of the representations can be viewed via the Limehouse website at:

<http://oldham-consult.limehouse.co.uk/portal> .

- 1.9** You will need to register if you have not already done so. Alternatively, they can be viewed at the Oldham Business Centre, Cromwell Street, Oldham by appointment. Please telephone 0161 770 4151 to make arrangements for viewing.
- 1.10** Table 1 illustrates the overall preferences for the sites that were put forward for either development or protection or better use:

**Table 1 Responses received by preference type**

Site Preference	Number of responses	Percentage of responses
Development	164	23.0%
Protection	512	71.7%
Better Use	35	4.9%
Other comment	3	0.4%
Total	714	100.0%

**1.11** Table 2 illustrates the number of comments received by different categories of respondent:

**Table 2 Responses received by type of consultee**

Consultee Type	Number of responses	Percentage of responses
Individual	490	68.6%
Community Group	74	10.4%
Commercial	73	10.2%
Statutory Consultee	69	9.7%
Interest Group	3	0.4%
Councillor	3	0.4%
Religious Organisation	1	0.1%
OMBC Internal	1	0.1%
Total	714	100.0%

**1.12** Table 3 illustrates the Area Committee areas where the comments came from:

**Table 3 Responses received by Area Committee**

Area Committee	Number of responses	Percentage of responses
Royton, Shaw & Crompton	358	68.7%
Saddleworth & Lees	61	11.7%
Hollinwood	42	8.1%
Chadderton	22	4.2%
East Oldham	17	3.3%
Failsworth	13	2.5%
Coldhurst	3	0.6%
Werneth	3	0.6%

Area Committee	Number of responses	Percentage of responses
Alexandra	1	0.2%
Medlock Vale	0	0.0%
Not Known	1	0.2%
Total	521	100.0%

\*Note that the table above does not include a further 193 representations from individuals and organisations with a Boroughwide interest, or who are located outside of the Borough.
