 - Other Watercourses
 - Areas Benefiting From Defences (V1.18)

This plan has been produced in accordance with PPS25: Development and Flood Risk and its Practice Guide.

This plan identifies all flood risk management measures within Oldham, including the location of Environment Agency, Local Authority and privately owned defence assets and Areas Benefiting from Defences (ABDs). This information is based upon the SFRA asset database discussed in Volume II of the SFRA. The asset database has been provided as a separate document to the SFRA.

Areas Benefiting from Defences only available for areas where the benefit of defences has been modelled as part of a river modelling study.
