

## Oldham Unitary Development Plan Review – 2001 to 2016

Proposed Modifications to the Draft Replacement UDP, February 2006

## HOW TO USE THIS DOCUMENT

### About the contents

This document should be read in conjunction with:

- The Schedule of pre-Inquiry Changes to the Oldham Revised Deposit Draft Replacement Unitary Development Plan published 29<sup>th</sup> November 2004;
- The Schedule of Further pre-Inquiry Changes relating to the Housing Section of the Oldham Revised Deposit Draft Replacement Unitary Development Plan published 24<sup>th</sup> January 2005.
- The Inspector's Report;
- Statement of Decisions in respect of the Inspector's Report;
- The Replacement Unitary Development Plan Revised Deposit Draft October 2003; and
- The List of Proposed Technical Changes.

The Inspector's Report was received by the Council on 19<sup>th</sup> December 2005 and published on 6<sup>th</sup> January 2006. In the Report, the Inspector considers all the objections and representations, both written and oral, submitted to the Public Inquiry held between 25<sup>th</sup> January and 18<sup>th</sup> October 2005. For each policy or proposal in the draft plan that was the subject of objection, the Inspector recommends the course of action that the Council should take.

Oldham MBC is required to consider the Inspector's Report and decide what action to take on each of the recommendations. The Council is not obliged to accept the Inspector's recommendations, but it is required to prepare a statement of its decision on each recommendation and to give full reasons where it does not accept a recommendation. This document is Oldham MBC's Statement of Decisions in respect of the Inspector's Report and is referred to above.

Following consideration of the Inspector's Report the Council proposes that changes, formally known as "modifications", be made to the draft plan. Some modifications may be required because the Inspectors upholds and objection to the plan that results in new proposals, and others may be because the Council's own proposed pre-Inquiry Changes need to be advertised through the modifications procedure.

Representations should only be made to the changes that have been made at this stage, not on text around them. In some instances altered sentences are set out in full but this is only to help readers to understand the effects of the proposed modifications.

A separate form will provide details of how to object to, or support, the proposed modifications.

### The Structure of this Report

The proposed modifications are set out in the following pages in the chapter order of the draft Replacement Unitary Development Plan, which is as follows:

1. Introduction
2. Planning Strategy
3. The Design of New Development
4. Transport
5. Business, Industry and the Local Economy
6. Housing
7. Retail and Leisure Development
8. Oldham Town Centre
9. Community and Education Facilities
10. Open Space, Sport and Recreation Facilities
11. Open Environment
12. Conservation of the Historic Environment
13. Natural Resources and Environmental Quality
14. Waste Management
15. Glossary
16. Technical Changes

This is also how the Inspector's Report was structured and should therefore allow for easy cross reference where readers wish to check back the detail of the Inspector's reasoning.

In addition to the above there are also the following Appendices:

Appendix 1 – Map Changes relating to Proposed Modifications

Appendix 2 – The List of Proposed Technical Changes

Appendix 3 – The Council's pre-Inquiry Changes published 29<sup>th</sup> November 2004.

Appendix 4 – The Council's Further pre-Inquiry Changes published 24<sup>th</sup> January 2005.

"Any major [new development,] including a residential development comprising 10 or more units, or a non-residential development exceeding 1000m<sup>2</sup> gross floorspace"

**ADD** after "energy efficiency" the following text: "by embodying the principles of passive solar design"

**DELETE** at the end of paragraph the following text: ", insofar as is reasonably practicable"

**ADD** the following text to the end of the policy: "Unless otherwise agreed with the local planning authority, the new development should be designed to address the following criteria:

- a. To orientate the main glazed elevations of buildings within 45 degrees of due south where possible to maximise the potential for solar gain;
- b. To site buildings so that south facing elevations will not be excessively overshadowed by other buildings, structures, or trees;
- c. To provide shelter from northerly winds by other buildings, walls, vegetation and the local terrain;
- d. To provide larger glazed areas on southerly elevations and smaller glazed areas elsewhere;
- e. To ensure that the plan form of buildings is designed to ensure that all habitable rooms and workspaces will receive good levels of daylight to minimise the need for the use of artificial lighting during the daytime; and
- f. To design buildings and orientate gardens and other outdoor amenity space to maximise access of such spaces to direct sunshine."

**SITE REFERENCE:** N/A  
**PARAGRAPH NO:** 5.25

**INSPECTOR'S REPORT:** RECOMMENDATION AT PARA 5.95

**PROPOSED MODIFICATION ARISING FROM INSPECTOR'S RECOMMENDATIONS AND COUNCIL AMENDMENT:**

- **AMEND** Policy 2.1 of the Business, Industry and Local Economy as follows:

**DELETE** “local needs” in criterion i and replace with “small scale”.

**ADD** after criterion k. the following:

“Housing and/or related community uses (as defined in policy CF1.2) will not be permitted unless;

- i) The development satisfies the policies elsewhere in the Plan and the proposed use is compatible with neighbouring uses, and
- ii) It is demonstrated, either through a marketing exercise or viability assessment, that there is no realistic prospect of the site being used for business or industrial employment purposes as listed above a. to k. inclusive within the plan period, or
- iii) The development would help to achieve the local and strategic objectives of the HMR programme and that the benefits of such help, including any achieved through a planning agreement to

support the local economy and employment, would outweigh the loss of the business or industrial use.

- **ADD** new text to the reasoned justification after the list of PEZ's at paragraph 5.25, as follows:

“Although the primary purpose of the PEZ policy is to protect existing employment areas, the Council believes there are certain circumstances in which housing development may be appropriate. Thus, whilst there is a general need for the retention of business and industrial uses in PEZs, some residential or mixed-use development may be permissible where it can be demonstrated that there is no realistic prospect of the land or buildings being used for business or industrial uses within the Plan period, and that the use proposed will be compatible with neighbouring land uses. The Council will also wish to consider the implications of the proposed development for regional and local economic and housing strategies.

To satisfy criterion ii) above, the Council will require evidence that the land or premises have been marketed at a reasonable price for an appropriate period and in appropriate trade press or elsewhere (all by prior agreement), in order to be satisfied that there is no realistic demand for its continued employment use. The Council will look more favourably upon proposals for mixed use rather than residential development on such sites, as this would mean a continuing contribution towards the local economy and employment. Retail uses would only be permitted in accordance with other policies in the Plan. Proposals for new offices generating significant numbers of trips are subject to the locational criteria set out in policy B1.5 a.

Alternatively, there may be occasions when a rigorous financial appraisal can show, without the need to go through a full marketing exercise, that the development or redevelopment of a site for business or industrial use is not viable. The criteria for such an appraisal and for marketing exercises will be set out in a Supplementary Planning Document.

Oldham is also a Housing Market Renewal (HMR) Pathfinder authority and is committed to a long-term regeneration programme that will transform its housing markets, create sustainable communities and lead to greater community cohesion. The need to deliver neighbourhood transformation and regeneration through Housing Market Renewal might sometimes justify the release of land for housing and/or related community uses even when it is still needed for employment. To satisfy criterion iii) above, applicants will be required to demonstrate the net benefit of a proposal, and how it supports local and strategic HMR objectives. In considering whether the benefits outweigh the loss of employment land, the Council will have regard a number of factors, including:

- a. Whether the proposed development would help to deliver an approved master plan (although this will not be a requirement of such development);
- b. The need for the proposed development in the context of the HMR objectives and programmes;
- c. Whether the proposed development includes some employment uses;
- d. Whether the site is in active business or industrial use;

- e. Whether the developer offers a planning agreement to facilitate measures to support the local economy and employment; and
- f. The contribution that the proposed development would make to creating sustainable communities.

In relation to (e) above, the benefits of the proposal might, for example, include a financial contribution to help relocate an existing business displaced by the development, and thereby safeguard employment. The details of such contributions will be set out in a Supplementary Planning Document”.

**REASON FOR MODIFICATION:**

To comply with the Inspector’s recommendation and to ensure that the amenity of any proposed development is taken into account in assessing planning applications with a residential element where the site lies within a PEZ.

**REWORD** criterion (c) as follows:

“c. It is demonstrated, either through a marketing exercise or viability assessment, that there is no realistic prospect of the site being used for employment purposes within the plan period, or”

**ADD** a new criterion d. with the following wording:

“The development satisfies the policies elsewhere in the Plan, would help to achieve the local and strategic objectives of the HMR programme and that the benefits of such help, including any achieved through a planning agreement to support the local economy and employment, would outweigh the loss of the employment use.”

**DELETE** “In the latter case” from the beginning of the second sentence of paragraph 5.27 and **REPLACE** with “In relation to clause c.,”

**INSERT** a paragraph break after “...continued employment use” in the second sentence of paragraph 5.27 and add two additional paragraphs as follows (note the wording of paragraph 5.27 – from the words “The Council will look more favourably upon...” - will continue in the form of a new paragraph after the additional wording set out below):

“Alternatively, there may be occasions when a rigorous financial appraisal can show, without the need to go through a full marketing exercise, that the development or redevelopment of a site for business or industrial use is not viable. The criteria for such an appraisal and for marketing exercises will be set out in a Supplementary Planning Document.

However, Oldham is also a Housing Market Renewal Pathfinder authority and is committed to a long-term regeneration programme that will transform its housing markets, create sustainable communities and lead to greater community cohesion. The Council recognises through clause d. of the policy that the need to deliver neighbourhood transformation and regeneration through Housing Market Renewal might sometimes justify the release of land for housing and/or related community uses even when it is still needed for employment. To satisfy clause d. above, applicants will be required to demonstrate the net benefit of a proposal, and how it supports local and strategic HMR objectives. In considering applications against this policy, the Council will employ the same approach as is set out in the justification to policy

B2.1. More information on this will be set out in a Supplementary Planning Document”.

**INSPECTOR'S REPORT:** RECOMMENDATION AT PARA 6.54

**PROPOSED MODIFICATION ARISING FROM INSPECTOR'S RECOMMENDATIONS:**

- **ADD** new text after paragraph 6.11 of the Housing chapter in accordance with pre-Inquiry Change PIC33:

"The HMR Prospectus, published in December 2003, sets out five key objectives for the Partnership:

- To transform the housing choices to meet current and future demand, providing modern attractive homes, through clearance, remodelling and redevelopment.
- To achieve and sustain an excellent standard for existing retained housing focussing especially on priority neighbourhoods.
- To improve the image, safety and attractiveness of neighbourhoods so people will be proud to live there and choose to invest.
- To improve substantially the quality of life of local people by increasing employment and leisure opportunities, and transforming their educational attainment and health.
- In all that we do, we will work together to achieve community cohesion, creating places where a range of people can live happily together.

(Executive Summary of the Prospectus)

The lifetime of the Pathfinder is expected to be up to 15 years. During this time it is proposed to clear over 6,000 dwellings across the Partnership but build back an even greater number - over 7,000 dwellings (Source: The Housing Market Renewal Prospectus for the Oldham and Rochdale Pathfinder, page 3).

Clearance activity in the Borough over the next fifteen years is likely to be largely focussed on areas within the Pathfinder. At the time of writing, funding to implement a housing market renewal strategy in Oldham has only been granted for the period 2004-2006 and applies to the Wave 1 project areas of Werneth/Freehold and Derker. The Prospectus estimates that total clearance in these two areas will reach some 1,062 dwellings in total over a five-year period (2004 to 2009). Although it is likely that clearance will be higher in Oldham than Rochdale, clearance levels beyond the first two years of the programme can only be estimated, for example if it is assumed that two thirds of clearance will occur in Oldham, then this would equate to some 4,000 dwellings over the period of HMR (2004 to 2019). A level of clearance on this scale over a fifteen-year period would equate to an average of 267 dwellings per annum. In reality, the potential level of clearance within the Housing Market Renewal Fund will remain under continual review and it is likely that the level of clearance and the rate of its delivery will vary considerably throughout the lifetime of HMR. The actual delivery of clearance will depend on a number of factors, including:

- future funding levels;
- the result of community consultations and of working with local communities to develop proposals;
- the residential character of areas subject to clearance proposals; and
- changes in the housing market.

The Council recognises that current and future clearance levels will require close monitoring. Future annual housing land monitoring reports will deal specifically with issues arising from HMR in so far as they affect policies and proposals in this chapter. Such reports will consider actual and planned clearance and the potential implications on housing land release, including any implications for the release of Phase 2 housing allocations”.

**INSPECTOR'S REPORT:** RECOMMENDATION AT PARA 6.54 AND ELSEWHERE AS DETAILED BELOW

**PROPOSED MODIFICATION ARISING FROM INSPECTOR'S RECOMMENDATIONS:**

- **AMEND** list of Phase 1 housing allocations in accordance with pre-Inquiry Change PIC40, and to reflect recommendations elsewhere in the Inspector's report, as follows:

**H1.1.6 – St. Mary’s Way, Oldham – AMEND** the indicative capacity to 180 dwellings and indicative density to 72 dwellings in accordance with the Council’s pre-Inquiry Change PIC40.

**H1.1.9 – Lower Lime Road, Oldham – DELETE** the allocation from the list of Phase 1 sites and **ADD** to the list of Phase 2 housing allocation in accordance with the Inspector’s recommendation at paragraph 6.107.

**H1.1.11 – Acorn Mill, St. John Street, Lees – DELETE** the allocation in accordance with the Council’s pre-Inquiry Changes PIC40 and PIC105 (planning permission granted).

**H1.1.13 – Coverhill Road, Grotton, Saddleworth – DELETE** the allocation in accordance with the Council’s pre-Inquiry Changes PIC40 and PIC106 (planning permission granted).

**M2 – Lumb Mill, Huddersfield Road, Delph, Saddleworth – AMEND** the indicative capacity to 62 dwellings in line with the Inspector’s recommendation at paragraph 5.61 of his report.

**M1 – Frenches Wharf, Wellington Road, Greenfield, Saddleworth – AMEND** the indicative capacity to 99 dwellings in accordance with the Inspector’s recommendation at paragraph 5.51 of his report.

**H1.1.23 – Pretoria Road, Oldham – ADD** to the list of Phase 1 allocations in accordance with the Council’s pre-Inquiry Changes PIC40, PIC45 and PIC107 (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**H1.1.24 – Sandy Mill, Royton – ADD** to the list of Phase 1 allocations and **AMEND** the site boundary to include Stadium works and the car dealership on the frontage of Dogford Road and Rochdale Road in accordance with the Council’s pre-Inquiry Changes PIC40, PIC45 and PIC102. In addition **ADD** a small area of vacant land off Mellor Street in accordance with the Inspector’s recommendation at paragraph 6.134 of his report. These modifications in totality result in an increase in the site size to 2.20 ha, and an increase in the indicative capacity to 90 dwellings (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**H1.1.25 – Jowett Street, Oldham – ADD** to the list of Phase 1 allocations in accordance with the Council’s pre-Inquiry Changes PIC40, PIC45 and PIC108 (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**M4 – Huddersfield Road/Dunkerley Street, Oldham - ADD** to the list of Phase 1 allocations in accordance with the Council’s pre-Inquiry Changes PIC40 and PIC45 (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**H1.1.26 – Spencer Street, Oldham – ADD** to the list of Phase 1 allocations in accordance with the Council's pre-Inquiry Changes PIC40 and PIC103.

**H1.1.27 – Hartford Mill/Land off Milne Street, Oldham – ADD** to the list of Phase 1 allocations in accordance with the Council's pre-Inquiry Changes PIC40 and PIC104.

**H1.1.28 – Parkside Farm, off Chadderton Park Road, Chadderton – ADD** to the list of Phase 1 allocations in accordance with the Inspector's recommendation at paragraph 6.113 of his report (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**H1.1.29 – Blackshaw Lane, Royton - ADD** to the list of Phase 1 allocations in accordance with the Inspector's recommendation at paragraph 6.140 of his report (site deleted from the list of Phase 2 housing allocations – see Modification 6/15).

**H1.1.30 – Greenfield Bowling Club, Greenfield – ADD** to the list of Phase 1 allocations in accordance with the Inspector's recommendation at paragraph 6.63 of his report. The site size is 0.50 ha., the indicative capacity for this site is 15 dwellings, and the indicative density is 30 dwellings per hectare.

**H1.1.31 – Tamewater Mill, Delph – ADD** to the list of Phase 1 allocations in accordance with the Inspector's recommendation at paragraph 5.135 of his report. The site size is 0.51 ha., the indicative capacity for this site is 39 dwellings, and the indicative density is 76.5 dwellings per hectare.

- **AMEND** the total Phase 1 site capacity from 695 dwellings to 1,310 dwellings.

#### **REASON FOR MODIFICATION:**

To comply with the Inspector's recommendation that supports the Council's pre-Inquiry Changes PIC40 and PIC45 published on 29<sup>th</sup> November 2004, modified to reflect recommendations made elsewhere in the Inspector's report.

**PROPOSED MODIFICATION ARISING FROM INSPECTOR’S RECOMMENDATIONS:**

- **AMEND** paragraph 6.26 of the Housing chapter in accordance with pre-Inquiry Change PIC42 and the Council’s List of Proposed Technical Changes as follows:
- **ADD** “also” between “should” and “be” in the first sentence.
- **ADD** the following text to the end of the paragraph after “only”:

“The Council has also made an allowance for the development of housing on sites where existing housing has been subject to clearance. The rate of on-site “build-back” will vary according to both the type of dwellings being cleared and the type of new housing being developed. Since it is likely that clearance will be predominantly of terraced houses and flats it is assumed that on average 60% of the original number of dwellings will be redeveloped on-site. As with the rate of clearance itself, this figure is likely to fluctuate on an annual and site-by-site basis. These additional allowances are set out in Table 2 below”.

**AMEND** the title of Table 4 to read “Table 2 – Allowances as of 1<sup>st</sup> April 2004”.

**AMEND** the allowance for completions on windfall sites of 0.4 hectares/10 dwellings and above from 75 dwellings to 100 dwellings

per annum. Also add the following text to the end of the notes for this item “and an assumption that HMR will deliver more windfall sites”.

**ADD** a new Item 3 to be an additional allowance for build-back on clearance sites of 160 dwellings per annum. This item to be notated as follows, “Based on assumed average 60% redevelopment of cleared sites if clearance averaged 267 dwellings p.a.”.

**AMEND** the total allowances per annum from 130 dwellings to 315 dwellings.

**AMEND** the first Table Note from “2003-2005” to “2004-2006”.

**ADD** a second Table Note to read as follows “It is assumed that large-scale completions on cleared sites will not begin until 2007. However, any completions on cleared sites before this date will still count against the housing requirement set out in Policy H1”.

**REASON FOR MODIFICATION:**

**INSPECTOR'S REPORT:** RECOMMENDATION AT PARA 6.54 AND AS INDICATED BELOW

**PROPOSED MODIFICATION ARISING FROM INSPECTOR'S RECOMMENDATIONS:**

- **AMEND** Appendix B, Phase 1 site details and explanatory text in accordance with further Pre-Inquiry Change PIC113 and the Inspector's recommendations as follows (see also modifications 6/10 and 6/15):

**H1.1.9 – Lower Lime, Oldham**

- **DELETE** from list of Phase 1 site details and insert into list of Phase 2 site details (see Inspector's Report, paragraph 6.107).

**H1.1.16 – St. Mary's**

- **AMEND** site capacity from 112 dwellings to 180 dwellings.

**H1.1.11 Acorn Mill, Lees**

- **DELETE** (site deleted from list of Phase 1 allocations).

**H1.1.13 – Coverhill Road, Grotton**

- **DELETE** (site deleted from list of Phase 1 allocations).

## **M2 – Lumb Mill, Delph**

- **AMEND** as follows (see Inspector’s Report paragraph 5.61):

**AMEND** the site capacity from 20 dwellings to 62 dwellings.

**DELETE** the fourth sentence which reads “A planning brief has been approved for the development of part of the allocated site”.

**DELETE** the following wording from the fifth sentence “with the proportion of residential not to exceed 50% of the net total developable area”.

## **H1.1.18 – Frenches Wharf/Wellington Road, Greenfield**

- **AMEND** as follows (see Inspector’s Report paragraph 5.51):

**AMEND** site reference from H1.1.18 to M1.

**AMEND** site capacity from 70 dwellings to 99 dwellings.

**ADD** the following text after “40% of the net total developable area”:

“, subject to paragraph 5.16 of the reasoned justification to policy B1.3. In estimating the capacity of the site for housing the Council recognises that development proposals may exceed the indicative capacity”.

## **Springhey Mill, Oldham**

- **AMEND** as follows:

**AMEND** the site reference from H1.2.9 to H1.1.21. Amend site capacity from 12 to 15 dwellings.

**AMEND** the site text by adding after “”....landfill site”, the following:

“It is particularly important to note that the site is located at the entrance to the Housing Market Renewal area on approaching from the east along Huddersfield Road. The redevelopment of this site therefore offers the potential for the creation of a high profile gateway development. Consequently, the Council will wish to consider, with prospective developers, how the site can be developed in such a way that contributes to meeting HMRF aims and objectives”.

## **Pretoria Road, Oldham**

- **AMEND** as follows:

**AMEND** the site reference from H1.2.8 to H1.1.23.

**AMEND** the site text by adding after "...improve the local environment", the following:

"It is particularly important to note that the site is located within the Housing Market Renewal Fund boundary. Consequently, the Council will wish to consider, with prospective developers, how this site can be developed in a way that contributes to meeting HMRF aims and objectives".

### **Sandy Mill, Royton**

- **AMEND** as follows (see Inspector's Report paragraph 6.134):

**AMEND** the site reference from H1.2.14 to H1.1.24.

**AMEND** the site size from 1.59 ha to 2.20 ha.

**AMEND** the indicative site capacity from 85 dwellings to 90 dwellings.

**AMEND** the site explanatory text as follows:

**DELETE** the word "is" in the first sentence and insert "and adjacent vacant land and commercial uses lie" in its place.

**DELETE** the second sentence which begins "In redeveloping the site..", and insert the following text in its place:

"This allocation therefore offers the opportunity for a comprehensive redevelopment of this highly visible and sustainably located site. The Council will therefore expect to see a high quality treatment of the Oldham Road frontage, commensurate with its importance and prominence as a gateway to the Borough. The Council will negotiate for the provision of affordable housing as part of any redevelopment".

### **Jowett Street, Oldham**

- **AMEND** site reference from H1.2.15 to H1.1.25.

### **H1.1.26 - Spencer Street, Oldham**

- **ADD** the following site details (new Phase 1 allocation):

H1.1.26 Spencer Street, Oldham, 3.00 ha, 150 dwellings, PDL  
This site is located within the Werneth/Freehold first wave intervention area of the Housing Market Renewal initiative. The UDP allocation, proposing residential development, reflects the identification of the site for this use in the HMR Werneth/Freehold Master Plan. This is an important site occupying a key location within the first wave area,

providing access to a range of public transport options and basic services. The Council is keen to ensure that any redevelopment is of a high quality and provides a significant contribution to HMRF aims and objectives.

#### **H1.1.27 - Hartford Mill, Oldham**

- **ADD** the following site details (new Phase 1 allocation)

H1.1.27 Hartford Mill/Land off Milne Street, Oldham, 2.84 ha, 160 dwellings, PDL

This site is located within the Housing Market Renewal boundary and forms part of the Werneth/Freefold first wave Intervention Area. The site comprises the listed Hartford Mill and adjacent commercial uses off Milne Street. The Werneth/Freehold Master Plan proposes the conversion of the listed mill to apartments, but recognises that a residential conversion scheme could also incorporate community and employment uses. As with the Spencer Street allocation, the site lies in a key location within the area, providing access to a range of public transport options and basic services. The Council is keen to ensure that any redevelopment is of a high quality and provides a significant contribution to HMR aims and objectives.

#### **Parkside Farm, Chadderton**

- **ADD** to list of Phase 1 site allocations (reallocated from Phase 2 to Phase 1 – see Inspector’s Report paragraph 6.113). Site details remain the same except that the site reference is now H1.1.28.

#### **Blackshaw Lane, Royton**

- **ADD** to list of Phase 1 site allocations (reallocated from Phase 2 to Phase 1 – see Inspector’s Report paragraph 6.140). Site details remain the same except that the site reference is now H1.1.29.

#### **Greenfield Bowling Club**

- **ADD** to list of Phase 1 site details (new Phase 1 allocation – see Inspector’s Report, paragraph 6.63). Add the following site details:

H1.1.30 - Greenfield Bowling Club, Oak View Road, Greenfield, 0.50 ha, 15 dwellings, PDL

This site lies in a sustainable location with local facilities and public transport, in the form of bus and rail services, in close proximity. The site lies within Ladhill Conservation Area and is adjacent to the Listed Ladhill Bridge and Chew Brook. Proposals for the development of this site will therefore be required to achieve a high standard of design that is sensitive to the site context. The design of the scheme must be such that it will serve to preserve or enhance the character of the

conservation area. In particular the Council will wish to consider with potential applicants the need to preserve a number of trees within and on the edge of the site, particularly those between the existing car park and Chew Brook. The site lies in an area of flood risk and therefore issues of flood risk will require addressing as part of any planning application (see Policy NR2.2). The combination of a need to protect trees on the site and the setting of Ladhill Bridge will place limitations on the footprint available for residential development. Accordingly, the Council will require that the developable area of the site be strictly limited to the area occupied by the former bowling green, club-house and hard surfaced car parking area. Potential applicants are advised to speak to the Council's Highway Engineers at the earliest opportunity to discuss access arrangements.

### **Tamewater Mill, Delph**

- **ADD** to list of Phase 1 site details (new Phase 1 allocation – see Inspector's Report, paragraph 5.135).
- **ADD** the following site details:

H1.1.31 - Tamewater Mill, Delph New Road, Delph, 0.51 ha, 39 dwellings, PDL

This vacant mill and industrial complex provides an opportunity to enhance this part of the Tame Valley and improve the setting of the adjacent conservation area. The Council expects that redevelopment proposals will involve the conversion of the stone mill building fronting Delph New Road, plus an element of new build. Access to the site through the established access point will have to be carefully considered as it exists in an area of Green Belt which lies adjacent to the site.

The proposed development will be required to achieve a high standard of design that addresses sustainability issues and is sensitive to the site context. The design of the scheme must be such that it will serve to preserve or enhance the character and appearance of the Tamewater Conservation Area. Scheme design should allow for the retention of the existing trees adjoining the allocated site to the west.

The Council will wish to consider with prospective developers the opportunity this site provides to meet affordable housing requirements in the Saddleworth area.

### **REASON FOR MODIFICATION:**

To comply with the Inspector's sites specific recommendations as detailed in Modification 6/10 and to comply with the Inspector's recommendation that supports the Council's Further pre-Inquiry Change PIC113 published on 24<sup>th</sup> January 2005.

**MODIFICATION NO: 6/23**

**INSPECTOR'S REPORT:** RECOMMENDATION AT PARA 6.54 AND AS INDICATED BELOW

**PROPOSED MODIFICATION ARISING FROM INSPECTOR'S RECOMMENDATIONS:**

- **AMEND** Appendix B, Phase 2 site details and explanatory text in accordance with further Pre-Inquiry Change PIC113 and the Inspector's recommendations as follows (see also modifications 6/10 and 6/15):

**H1.2.1 – Parkside Farm, Chadderton**

- **DELETE** (site allocation moved to Phase 1)

**H1.2.4 – Medlock Road, Woodhouses**

- **DELETE** the explanatory text and replace it in accordance with the Inspector's recommendation at paragraph 6.2 of his report, as follows:

"The site will provide a long term opportunity for development in an area which has generally few housing opportunities. The development of the site will support the Council's objectives aimed at providing a spread of new housing opportunities across the Borough".

**H1.2.5 – Blackshaw Lane, Royton**

- **DELETE** (site allocation moved to Phase 1).

**H1.2.8 – Pretoria Road, Oldham**

- **DELETE** (site allocation moved to Phase 1)

**H1.2.10 – Knowles Lane, Lees**

- **AMEND** explanatory text in accordance with the Inspector's recommendation at paragraph 120 of his report, by adding the following after the words "affordable housing":

"Any future development will be required to make provision for a pedestrian route within the site and/or along the frontage to Knowls Lane to improve access to St Agnes School for residents and their children".

#### **H1.2.13 – Holden Fold Lane, Royton**

- **AMEND** the site size from 0.51 ha to 0.40 ha and the site capacity from 15 dwellings to 12 dwellings in accordance with the Council's pre-Inquiry Changes PIC09 and PIC109 supported by the Inspector in paragraph 6.148 of his report.

#### **H1.2.14 – Sandy Mill , Royton**

- **DELETE** (site allocation moved to Phase 1)

#### **H1.2.15 – Jowett Street, Oldham**

- **DELETE** (site allocation moved to Phase 1)

#### **M4 – Huddersfield Road/Dunkerley Street, Oldham**

- **DELETE** (site allocation moved to Phase 1).

#### **H1.2.16 - Lower Lime, Oldham**

- **ADD** site details to Phase 2 list of sites (site allocation moved from Phase 1) in accordance with the Inspector's recommendation at paragraph 6.107 of his report.

#### **H1.2.17 - Danisher Lane, Oldham**

- **ADD** to list of Phase 2 site details (new Phase 2 allocation) in accordance with the Inspector's recommendation at paragraph 6.77 of his report).
- **ADD** the following site details:

H1.2.17 - Danisher Lane, Oldham 0.46 ha, 18 dwellings, GF  
This sustainably located site lies on a major bus route between Oldham and Ashton. The site abuts the green belt and as such any future development proposals should be designed in an appropriately sensitive manner. Access to the development is along Danisher Lane which will require upgrading to the appropriate highway standards.

**REASON FOR MODIFICATION:**

## SECTION 13 NATURAL RESOURCES AND ENVIRONMENTAL QUALITY

Chapter	Policy	Change to	Change	Reason	Comment
Natural Resources	Introduction	13.5, b.	Amend PPG23 to read PPS23	To refer to new Planning Policy Statement 23, which replaces PPG23.	
Natural Resources	Introduction	13.5, h.	Amend Planning Policy Guidance Note 22 to read PPS22.	To refer to new Planning Policy Statement 22, which replaces PPG22.	
Natural Resources	NR1.2	13.21	Amend the first sentence as follows:  "The Council <del>is preparing</del> <u>has prepared</u> an Air Quality Action Plan ... that <del>will recommend</del> <u>recommends</u> a range of .....	To update the plan.	
Natural Resources	NR1.6	13.34	Add the following sentence to end of paragraph:  "The Council will prepare a Supplementary Planning Document on Contaminated Land."	To reflect the list of proposed SPDs in Oldham's Local Development Scheme.	
Natural Resources	NR2	13.43	Change 'supplementary planning guidance to be published on sustainable building design' to 'a supplementary planning document to be published on Urban Design'.	To reflect new planning legislation and the list of proposed SPDs in Oldham's Local Development Scheme.	
Natural Resources	NR2.3	13.60	Remove inverted commas from end of paragraph.	Correction.

Natural Resources	N/A	13.70	<p>planning document on Urban Design’.</p> <p>Amend text at the end of paragraph 13.70, as revised by PIC 86, as follows:</p> <p><u>“It is proposed that</u> <del>F</del>targets to increase the capacity for renewable energy in Greater Manchester <del>by 2010 and 2020</del>, expressed in megawatts but not specific to technologies, will be set out in revised Regional Spatial Strategy, in accordance with Planning Policy Statement 22.”</p>	<p>under preparation.</p> <p>To reflect the fact that the partial review of Regional Spatial Strategy for the North West has now formally been withdrawn, pending the full review. Whilst it remains probable that the full review will still incorporate renewable energy targets, there is inevitably a greater degree of uncertainty because the full review process is at an earlier stage.</p>	<p>GO NW has been informally consulted on this and advised making the change.</p> <p>Objections relating to paragraph 13.70 were addressed in Council written response reference OMBC/W/NR0.</p>
Natural Resources	N/A	13.76	<p>Amend text as follows:</p> <p>“It also includes the impacts of associated infrastructure as well as the <del>turbines</del> <u>renewable energy plant</u> <del>itself themselves</del>, for example access tracks and grid connections.”</p>	<p>This is reasoned justification to policy NR3.1, which deals with all renewable energy technologies and not just wind power. Therefore a more general term is more appropriate.</p>	
Natural Resources	NR3.1	13.80	<p>Add the following text to follow paragraph 13.80, at the end of the reasoned justification to policy NR3.1:</p> <p>‘Cross References.</p> <p>More detailed policies relating to the criteria in policy NR3.1 may be found in the following sections of the plan:</p>	<p>To assist people using the plan.</p>	<p>This links to a response to an objection from the Saddleworth Civic Trust, reference 0828/2/026/O. INQUIRY CHANGES PUBLISHED 29<sup>TH</sup>  
NOVEMBER 2004**

## GUIDE TO SCHEDULE

This document is the schedule of pre-inquiry changes to the Oldham Revised Deposit Draft Replacement Unitary Development Plan (UDP).

The First Deposit Draft of the Replacement UDP was published in October 2001. Changes were made to the First Deposit Draft in response to objections and new information, which are shown as follows:

- a). Text deleted in the First Deposit Draft Replacement UDP is shown as being struck through ~~like this~~.
- b). New text added to form the Revised Deposit Draft Replacement UDP is shown underlined like this.

The Revised Deposit Draft of the Replacement UDP, to which the instructions stated above apply, was published in October 2003.

Following objections received, further changes have been made to the Revised Deposit Draft Replacement UDP in the form of pre-inquiry changes, which are shown in this schedule as follows:

**New text added to the Revised Deposit Draft Replacement UDP as a pre-inquiry change is shown highlighted like this.**

**Revised Deposit Draft Replacement UDP text that has been deleted as a pre-inquiry change is shown double struck through ~~like this~~.**

As in the main body of the Draft Replacement UDP, in this pre-inquiry changes document, policies may be distinguished from the reasoned justification because the policies are in bold print.

A separate form provides details of how to object to, or support, the pre-inquiry changes.

<b>INTRODUCTION</b>			
1	Paragraph 1.25	<p>It is also important that Oldham's plans for land use complement those of neighbouring areas to the east, like the Peak District National Park. <b>Section 62 of the Environment Act 1995 places a duty on local authorities to have regard to the purposes for which National Parks are designated in carrying out their own activities and decisions.</b> <u>The draft replacement UDP will therefore need to support the Peak District National Park Authority in its policies to manage and protect the Park. This will require joint working. The Council also works jointly through the Standing Conference of South Pennine Authorities and consultations with neighbouring authorities at every stage of the UDP review.</u></p>	<p>This complements a proposed pre-inquiry change to policy OE2 and its reasoned justification. It is to meet a Peak Park Authority objection and to ensure that the Peak Park is protected.</p>
<b>PLANNING STRATEGY</b>			
2	Bullet Point f.	<p><u>The balance between the built up and countryside areas of the Borough should remain substantially unchanged, as the urban fringe area provides the town and villages with their setting and the Borough's inhabitants with some nearby relief from built development. However, strong protection of the openness of the Green Belt will not necessarily mean that no development is permissible permitted. Some forms of development may by their very nature need to take place in the urban fringe, but they will be subject to national and local Green Belt Policy for example, some outdoor recreation, rural diversification and renewable energy generation. All development proposals in the area will need careful planning, in order to maintain landscape quality and distinctiveness.</u></p>	<p>To satisfy objections and meet concerns regarding the approach to Green Belt.</p>

<b>DESIGN</b>		
3	<p>D1.1, Paragraph 3.24</p> <p><del>The Council intends to publish supplementary planning guidance* on the design of new housing at an early date</del> A supplementary planning document on urban design will be prepared by the Council.</p>	<p>To refer to the planned supplementary planning document as part of Oldham's Local Development Framework.</p> <p>To meet objection from GO NW.</p>
4	<p>D1.2</p> <p><del>Any major new development, including a residential development comprising 10 or more units, or a non-residential development exceeding 1000m<sup>2</sup> gross floorspace should be designed to optimise its energy efficiency by embodying the principles of passive solar design in respect of its layout, built form, fenestration and landscaping, insofar as is reasonably practicable.</del></p> <p>Unless otherwise agreed with the local planning authority, the new development should be designed to address the following criteria:</p> <ul style="list-style-type: none"> <li>a. To orientate the main glazed elevations of buildings within 45 degrees of due south where possible to maximise the potential for solar gain;</li> <li>b. To site buildings so that south facing elevations will not be excessively overshadowed by other buildings, structures, or trees;</li> <li>c. To provide shelter from northerly winds by other buildings, walls, vegetation and the local terrain;</li> <li>d. To provide larger glazed areas on southerly elevations and smaller glazed areas elsewhere;</li> </ul>	

		<p><b>e. To ensure that the plan form of buildings is designed to ensure that all habitable rooms and workspaces will receive good levels of daylight to minimise the need for the use of artificial lighting during the daytime; and</b></p> <p><b>f. To design buildings and orientate gardens and other outdoor amenity space to maximise access of such spaces to direct sunshine.</b></p>	
5	D1.2, Paragraph 3.25	<p>The need to secure more genuinely sustainable development is now an accepted objective for the planning system. It is widely acknowledged that seeking to achieve more energy efficient siting and design of buildings can make a major contribution in this regard by significantly reducing CO<sub>2</sub> emissions and conserving non-renewable energy supplies. <b>Better living and working conditions for future users of buildings can also result.</b></p> <p>PPG 3 advises that local planning authorities should adopt policies “which promote the energy efficiency of new housing where possible” and that “well designed layouts can also contribute to the energy efficiency of new housing”. The materiality of the subject for the planning system has also been acknowledged by the publication of “Planning for Passive Solar Design” on behalf of the DTI and DTER (1997). <b>Regional Spatial Strategy for the North West (RPG 13) states that development plans should “ensure that development minimises energy use through careful and imaginative location, design and construction techniques” – Policy ER 13.</b></p>	To meet objection from GO NW.
6	D1.2, Paragraph 3.26	<p><del>3.27 For example, in respect of housing developments, the following measures can significantly reduce the potential energy consumption of the completed development:</del></p> <p>i) <del>Siting buildings so as to avoid very exposed positions such as hill crests, and conversely favour sites that are naturally sheltered by landform or woodland;</del></p> <p>ii) <del>Using an increased proportion of attached house types (flats and terraced);</del></p>	To meet objection from GO NW.
7	D1.2, Paragraph 3.27	<p><del>3.27 For example, in respect of housing developments, the following measures can significantly reduce the potential energy consumption of the completed development:</del></p> <p>i) <del>Siting buildings so as to avoid very exposed positions such as hill crests, and conversely favour sites that are naturally sheltered by landform or woodland;</del></p> <p>ii) <del>Using an increased proportion of attached house types (flats and terraced);</del></p>	To meet objection from GO NW.

		<p><del>iii) Having an emphasis on wider, shallower floor plans to permit better penetration of daylight and sunlight to all parts of the house;</del></p> <p><del>iv) Orientating buildings within 45° of south (but preferably within 30°) and arranging fenestration to catch light and sun;</del></p> <p><del>v) Positioning the main living accommodation on the south side of the house;</del></p> <p><del>vi) Designing the layout of buildings and trees so as to minimise overshadowing;</del></p> <p><del>vii) Using planting creatively to provide a sheltered microclimate for buildings and external spaces;</del></p> <p><del>viii) Avoiding layouts which exacerbate “wind tunnel” effects;</del></p> <p><del>ix) Incorporating pitched roofs that are capable of receiving solar panels or photovoltaic cells;</del></p> <p><del>x) Positioning conservatories and porches to maximise solar gain and thermal buffering to external doorways;</del></p>	
<p>8</p> <p>D1.2, Replacement Paragraph 3.27a</p>		<p>Whilst the Council believes that there will always be scope to exploit the potential for passive solar design in the design of any new development, it nevertheless recognises that in practice a balance will often need to be struck between achieving good passive solar design and other important planning and urban design objectives. This may particularly be the case for developments on smaller urban sites and within historic areas. However, even in such instances, there is often considerable potential that can be exploited by thoughtful and imaginative design without unduly prejudicing the satisfactory achievement of other objectives.</p>	<p>To meet objection from GO NW.</p>
<p>9</p> <p>D1.2, Paragraph 3.28</p>		<p>Design statements submitted in support of planning applications should seek to illustrate how the design of the scheme has taken account of potential to optimise passive solar design. Practical advice on designing to achieve more energy efficient designs can be found in: <u>Planning for Passive Solar Design (BRESCU, 1997)</u> and <u>Sustainable Settlements (University of the West of England, Local Agenda 21</u></p>	<p>To meet objection from GO NW.</p>

10	D1.3, Paragraph 3.40a	<p>UK, the Local Government Management Board, 1995). The Council intends to prepare a supplementary planning document on relevant aspects of sustainable design, including passive solar design, as a matter of priority</p> <p>Certain guidance on designing for inclusive access will be included in a supplementary planning document on urban design that will be prepared by the Council.</p>	To refer to the planned supplementary planning document as part of Oldham's Local Development Framework.
11	D1.4, Paragraph 3.48a	<p>Guidance on designing for habitat and wildlife on development sites can be found in existing supplementary planning guidance published by the Council entitled "Providing for Wildlife Habitats". Certain further guidance on designing for habitat and wildlife on development sites will be included in a supplementary planning document on urban design that will be prepared by the Council.</p>	To refer to the existing SPG entitled "Providing for Wildlife Habitats", and the planned publication of a supplementary planning document as part of Oldham's Local Development Framework.

12	D1.6, Paragraph 3.64a	<p>Certain guidance on landscape design in new developments will be included in a supplementary planning document on urban design that will be prepared by the Council.</p>	<p>To refer to the planned publication of a supplementary planning document as part of Oldham's Local Development Framework.</p>
13	D1.7, Paragraph 3.68	<p>Guidance on design for safety and security can be found in the Council's supplementary planning guidance note "Design Against Crime" and in Government circular 5/94. All developments should take into consideration the principles of Crime Prevention Through Environmental Design (CPTED) and developers are recommended to consult the Architectural Liaison Unit of Greater Manchester Police for advice in this regard. <b>Certain further guidance on designing for safety and security will be included in a supplementary planning document on urban design that will be prepared by the Council.</b></p>	<p>To refer to the planned publication of a supplementary planning document as part of Oldham's Local Development Framework.</p>
14	D1.8, Paragraph 3.74	<p>Guidance on shop front design is provided in the Council's Supplementary Planning Guidance note: "Shop Front Design". <b>This guidance will be reviewed and incorporated into a supplementary planning document on shop front design that will be prepared by the Council.</b></p>	<p>To refer to the planned publication of a supplementary planning document as part of Oldham Local Development Framework.</p>

15	D1.9, Paragraph 3.79a	Guidance on advertisements on business premises will be included in a supplementary planning document that will be prepared by the Council.	To refer to the planned publication of a supplementary planning document as part of Oldham Local Development Framework.
<b>TRANSPORT</b>			
16	T1.1, Footnote 2	<del>This date refers to the completion of a wider package of works.</del> The date for completion of the Oldham section will be reviewed when more information becomes available.	To update the Draft Replacement UDP.
17	T1.1, Paragraph 4.11	<p><del>The park and ride will be integral to the rail station facility planned for Diggle. The site allocated, north of Ward Lane, lies in the Green Belt and the layout, design and landscaping of the proposed scheme will be developed in line with relevant national planning guidance. A list of all sites identified for transport developments is provided in Appendix B. Although a railway station at Diggle is a priority station in the Greater Manchester Local Transport Plan (2001/2006), Government is not funding new stations within their 10 year investment plan ending in 2010. A railway station is proposed for the longer term (post 2010), whose completion will depend on restoration of four tracks through the Standedge Tunnel, the results of further studies by the GMPTA/E, in consultation with relevant transport agencies, and Government resources becoming available. The preferred site at Sam Road lies in the Green Belt and the layout, design and landscaping of the proposed scheme, including any associated parking, will be developed in line with relevant national planning guidance.</del></p>	To meet objection

18	T1.1, Paragraph 4.13	<p>The stops for the Metrolink extension agreed to date by GMPTE and the Council are listed under clause b. A transport proposal contained in the previous UDP, Wren's Nest Metrolink stop in Crompton, has now been abandoned. In addition, Werneth rail station will be likely to close when the Oldham Loop rail line is converted to Metrolink<sup>3</sup>. After GMPTE awards the final contract for the Metrolink extension in late 2003, the winning bidder will subsequently offer which stations to build and these could vary from those specified in the tender's Executive Requirements.</p>	To update the Plan
19	T3.1, Paragraph 4.39	<p>Development proposals that access or affect the traffic flow on trunk roads must be submitted to the Highways Agency for review. As a general rule, the Council will secure the funds for undertake any highway works that are needed to address the transport implications of a development through an agreement with the developer under Section 278 of the Highways Act 1980 and/or Section 106 of the Town and Country Planning Act 1990, and the works will be carried out by the local highway authority. Likewise, the Highways Agency may carry out improvements to trunk roads under Section 278 and DTLR DTLR Circular 04/2001. Where appropriate, the Council will also secure measures through planning conditions, such as restrictions on delivery days and hours. The Council will produce a Supplementary Planning Document on planning obligations, that will include guidance on transport-related measures and contributions which may be required under this policy.</p>	To clarify the policy and to refer to the planned publication of a supplementary planning document as part of Oldham's Local Development Framework.
20	T3.2, Paragraph 4.48	<p>The infrastructure, facilities and services required will be influenced by the objectives and investment programmes that are outlined in the current GMLTP</p>	To refer to the planned

<sup>3</sup> The existing Oldham Mumps station is also likely to close when the Oldham Loop Line is converted to Metrolink, however, this will not be confirmed until the contract has been awarded.

		<p>and in local transport and regeneration strategies. <b>The Council will produce a Supplementary Planning Document setting out</b> <del>the</del> scope and detail of transport assessments, <b>which</b> should reflect the size of a development and the extent of the transport implications. Further advice is awaited from the <del>DPLR*</del> <u>Government</u> but in the case of major developments it is likely that they should cover:</p> <ol style="list-style-type: none"> <li>a. an estimate of the number of trips likely to be generated, including an indication of their origins and destinations;</li> <li>b. the modal split* of trips – the proportion that will be made by different means of transport;</li> <li>c. existing road capacity and other transport provision;</li> <li>d. the impact on existing traffic flows;</li> <li>e. the impact on air and noise pollution levels;</li> <li>f. opportunities to link into public transport and the non-motorised private transport network;</li> <li>g. the need to complement or add value to transport schemes in the current GMLTP; to local strategies like the Oldham Town Centre Strategy; and to regeneration programmes such as the <u>Economic Development Zone*</u> and <u>SRB6*</u>; and</li> <li>h. opportunities for joint initiatives with other landowners and organisations, such as travel plans and shared* parking.</li> </ol>	<p>publication of a supplementary planning document as part of Oldham's Local Development Framework.</p>
<p>21</p>	<p>T3.2, Paragraph 4.50</p>	<p>The Council <del>can provide guidance in drawing up</del> <b>will produce a Supplementary Planning Document</b> on travel plans <del>to</del> <b>with guidance for</b> developers and <del>to</del> <b>for</b> businesses and organisations that will occupy new developments. Travel plans support sustainable transport objectives by encouraging employees or people who use the facilities to access them by means of public transport, walking and cycling and by making freight movements more environmentally friendly. <u>The 2001/2006 GMLTP targets organisations of 200 employees and over to produce</u></p>	<p>To refer to the planned publication of a supplementary planning document as part of Oldham's</p>

22	T3.3, Paragraph 4.51	<p><u>travel plans.</u> Where an air quality assessment of a development proposal indicates that increased traffic would create an air quality problem, the Council may require mitigation measures such as a travel plan (see policy NR1.2 in the Natural Resource and Environmental Quality section).</p> <p>In reviewing the parking element of development proposals, the Council will take account of the site's accessibility by public transport; the availability of on-street parking; the nature of the parking demand, for example short or long stay, time of day, day of week; and the feasibility of negotiating shared* or dual* use of parking with nearby landowners. Planning applications for developments with transport significant implications (see policy T2.2 T3.2 a.) will need to include a transport assessment with information on parking. <b>The Supplementary Planning Guidance on parking obligations to be produced by the Council will include guidance on parking-related measures and contributions which may be required under this policy.</b></p>	Local Development Framework.
			To clarify the policy and refer to the planned publication of a supplementary planning document as part of Oldham's Local Development Framework.

23	T3.3, Paragraph 4.55	<p><u>Strategic park and ride Parking to serve public transport (park and ride) is covered in policies T1.1. and T1.2. The provision of smaller parking facilities will also be desirable near other Metrolink, rail and bus stops to encourage motorists to use public transport for at least part of their journeys, particularly longer journeys, and to ease congestion in areas where local demand is already high for on-street parking. The Council will assess potential park and ride schemes on their overall performance, in line with the principles and evaluation criteria set out in GMPTA's current strategy on park and ride, and in conjunction with the GMPTE and relevant operators and transport agencies. As opportunities arise, the Council may seek to negotiate dual* or shared* use of parking on sites in the vicinity of public transport stops through agreements with landowners and developers. Alongside provision for motorists including disabled people, parking for cyclists and motorcyclists will be negotiated to support these more sustainable means of reaching stops and to extend people's transport options.</u></p>	In partial response to objections
<b>BUSINESS, INDUSTRY AND THE LOCAL ECONOMY</b>			
24	B1.2, Paragraph 5.14	<p><u>Development proposals for site B1.2.6 Albert Street, Hollinwood are expected to incorporate public open space along the boundary with Roman Road as recommended in the spatial master plan for the SRB6 area, with details to be negotiated between the developer and Council. Sites at Union Street West (B1.2.03) and Mumps (B1.2.04) include sections of the Oldham Loop rail line which may be disused as a result of conversion to Metrolink. When the final contract is awarded, <del>which is expected in late 2003</del> it will become clearer whether, and when, the land will become available for development. The Council wishes to make provisional allocations as the sites are in key locations for redevelopment at the edge of Oldham Town Centre in an area awarded Economic Development Zone status. <del>A planning application for a mixed use development was submitted in 2001 for the site at Stable Street, Hollinwood</del></u></p>	To update the Plan

Oldham is a Housing Market Renewal (HMR) Pathfinder authority and is committed to a long-term regeneration programme that will transform its housing markets, create sustainable communities and lead to greater community cohesion. Detailed master plans may demonstrate that the redevelopment of some PEZ land for housing and/or related community uses (as defined by Policy CF1.2) may be justified in relation to HMR objectives and the regeneration of the area as a whole. The policy therefore allows some flexibility in the uses permitted within PEZs, but only where the Council has approved detailed master plans and where the development would contribute directly to the HMR programme. The onus will be on the applicant to demonstrate that the development makes a clear contribution to the local and strategic objectives of the HMR programme. For the purposes of this policy, master plans may include detailed plans for neighbourhoods or sites contributing to the HMR programme.</p>	To clarify policy
28	B2.1, Paragraph 5.27	<p>In considering the release of PEZ land for other purposes, the Council will assess the benefits of redeveloping the site for housing or mixed-use development against the loss of the site for employment purposes. The requirement to make replacement provision or, if that is not possible, to make a financial contribution to a local employment initiative is to ensure that the RUDP's objectives in relation to Business, Industry and the Local Economy are not prejudiced. The financial contribution would be negotiated on a site by site basis and could be used for a number of purposes such as:</p> <ul style="list-style-type: none"> <li>• To help relocate an existing business and safeguard employment;</li> </ul>	To clarify policy

30	B2.2, Paragraph 5.30	<p>However, Oldham is also a Housing Market Renewal Pathfinder authority and is committed to a long-term regeneration programme that will transform its housing markets, create sustainable communities and lead to greater community cohesion. Detailed master plans may demonstrate that the redevelopment of some existing or former employment sites for housing and/or related community uses (as defined by Policy CF1.2) may be justified in relation to HMR objectives and the regeneration of the area as a whole. The policy therefore allows some flexibility in the uses permitted, but only where the Council has approved detailed master plans and where the development would contribute directly to the HMR programme. **HOUSING**

<p>31</p>	<p>H1, Paragraph 6.10</p>	<p>The clearance rate used in the above calculation is significantly below that achieved in recent years. However, a significant number of demolitions have involved Council properties. This is unlikely to be repeated to the same extent over the next ten years. <del>However, where there are high vacancy rates within the housing stock and problems of low demand, the traditional approach becomes flawed – it would seem illogical to have to identify a housing land supply which in part, exists to “replace” obsolete dwellings.</del></p>	<p>Reduction in vacancy taken into account through Regional Spatial Strategy for the North West (RPG housing figures were reduced by 50 dwellings p.a. for Oldham). To meet objection.</p>
<p>32</p>	<p>H1, Paragraph 6.11</p>	<p>Private sector clearance is mainly restricted to the renewal areas of Westwood and Glodwick. There is potential for additional clearance in the SRB6* regeneration area centred on Werneth and Hollinwood, and the Fitton Hill/Hathershaw New Deal* area. Future clearance rates in Oldham will, to a large extent, be dependent on strategies adopted through its status as a Housing Market Renewal Fund (HMRF) pathfinder authority (in partnership with Rochdale MBC). The HMRF exists to tackle issues of low demand, regenerate low demand areas and create places where people want to live. To achieve these key aims, an element of the HMRF strategy will involve the demolition of some existing houses in consultation with local communities. <del>At the time of writing, the production of a HMRF prospectus is being carried out by the pathfinder, its partner organisations and the local community. It is therefore not possible to be precise about the levels of future clearance and the nature of the cleared dwellings. Clearance assumptions within this policy should therefore be reviewed as representing an interim position that will be reviewed once the HMRF prospectus is published.</del></p>	<p>The revised deposit RUDP set out an interim position on clearance, pending further clarification of the level of clearance likely to take place. Although future clearance levels are very much open to on-going debate, the Plan should be open</p>

33	<p>H1, New Paragraph 6.11a</p>	<p>The HMR Prospectus, published in December 2003, sets out five key objectives for the Partnership:</p> <ul style="list-style-type: none"> <li>● To transform the housing choices to meet current and future demand, providing modern attractive homes, through clearance, remodelling and redevelopment.</li> <li>● To achieve and sustain an excellent standard for existing retained housing focussing especially on priority neighbourhoods.</li> <li>● To improve the image, safety and attractiveness of neighbourhoods so people will be proud to live there and choose to invest.</li> <li>● To improve substantially the quality of life of local people by increasing employment and leisure opportunities, and transforming their educational attainment and health.</li> <li>● In all that we do, we will work together to achieve community cohesion, creating places where a range of people can live happily together.</li> </ul> <p>(Executive Summary of the Prospectus)</p> <p>The lifetime of the Pathfinder is expected to be up to 15 years. During this time it is proposed to clear over 6,000 dwellings across the Partnership but build back an even greater number - over 7,000 dwellings (Source: The Housing Market Renewal Prospectus for the Oldham and Rochdale Pathfinder, page 3).</p>	<p>about what <i>could</i>, in theory, happen. To meet objection.</p> <p>The Revised Deposit RUDP position on clearance was stated to be an interim position (see above). We are now in a position to provide more detail on how the plan will deal with clearance. HMR could lead to clearance of some 4,000 dwellings. Such a rate would equate to an average of 267 dwellings p.a. However, the situation is too unclear to give precise figures.</p>
----	--------------------------------	--	--

		<p>Clearance activity in the Borough over the next fifteen years is likely to be largely focussed on areas within the Pathfinder. At the time of writing, funding to implement a housing market renewal strategy in Oldham has only been granted for the period 2004-2006 and applies to the Wave 1 project areas of Werneth/Freehold and Derker. The Prospectus estimates that total clearance in these two areas will reach some 1,062 dwellings in total over a five-year period (2004 to 2009). Although it is likely that clearance will be higher in Oldham than Rochdale, clearance levels beyond the first two years of the programme can only be estimated, for example if it is assumed that two thirds of clearance will occur in Oldham, then this would equate to some 4,000 dwellings over the period of HMR (2004 to 2019). A level of clearance on this scale over a fifteen-year period would equate to an average of 267 dwellings per annum. In reality, the potential level of clearance within the Housing Market Renewal Fund will remain under continual review and it is likely that the level of clearance and the rate of its delivery will vary considerably throughout the lifetime of HMR. The actual delivery of clearance will depend on a number of factors, including:</p> <ul style="list-style-type: none"> <li>● future funding levels;</li> <li>● the result of community consultations and of working with local communities to develop proposals;</li> <li>● the residential character of areas subject to clearance proposals; and</li> <li>● changes in the housing market.</li> </ul> <p>The Council recognises that current and future clearance levels will require close monitoring. Future annual housing land monitoring reports will deal specifically with issues arising from HMR in so far as they affect policies and proposals in this chapter. Such reports will consider actual and planned clearance and the potential implications on housing land release, including any implications for the release of Phase 2 housing allocations.</p>	<p>Refer to need to closely monitor &amp; tie to the possible release of Phase 2 sites if supply shortfall is expected. To meet objections.</p>

34	Paragraph 6.12	<p><del>Policy on private sector housing renewal, including clearance activity, is currently under review on both a national and local basis. Until the policy direction and resource levels become clearer, as a guide it is estimated that around 80 private and council owned dwellings will be cleared each year. This is based on known, planned clearance as at 2001.</del></p>	To reflect changed approach to the clearance issue.
35	Paragraph 6.13	<p>The actual and planned level of clearance and its implications for housing requirements and housing land release will continue to be monitored annually. <del>This rate will be monitored annually and, if found to be too low, the option of releasing Phase 2 sites will be considered. However, in considering the need to “replace” cleared dwellings through the identification of a housing land supply, the following principles will be adopted:</del></p> <ul style="list-style-type: none"> <li><del>i) Properties which have been vacant for more than 6 months prior to the declaration of a clearance area or other official notification of the intention to demolish will NOT be counted towards the above clearance figure for the purposes of meeting UDP housing requirements;</del></li> <li><del>ii) Sites which are created through the clearance of such properties will be counted as windfall sites if redeveloped for new residential development. Any properties developed will therefore count in their entirety as a net gain to the housing land supply of the Borough;</del></li> </ul>	To reflect changed approach to vacancy, in response to objections.
36	Paragraph 6.14	<p><del>The aim of this</del> <b>Whatever clearance rate is actually delivered, it is a key element of the UDP strategy to ensure that the Plan's approach to housing clearance and</b> land supply ensures that the release of land for new housing development does not prejudice renewal objectives aimed at tackling issues created by low demand and high vacancy levels.</p>	To tie in with changes to the plan's approach to vacant dwellings.

37	Paragraph 6.18	<p><u>6.18 Regional Planning Guidance states that on average at least 80% of housing development should be on previously developed – or “brownfield” – land. It is anticipated that 84% <del>88%</del> 93% of development attributable to current commitments and Phase 1 allocations will be on previously developed land. The UDP sets the target for re-using previously developed land at the lower rate of 75% to allow for the possible development of greenfield windfall sites (see Policy H1.3), and the potential need to bring forward well-located greenfield sites, should previously developed sites come forward at a lower rate than expected</u></p>	To reflect the changes to the housing allocations.
38	Paragraph 6.20 a	<p>a. Housing Supply</p> <ul style="list-style-type: none"> <li>i) number of dwellings built</li> <li>ii) location of new development</li> <li>iii) proportion of dwellings built on previously developed land and through conversions</li> <li>iv) number of dwellings built on windfall sites</li> <li>v) number of dwellings built on small sites</li> <li><del>vi) number of vacant dwellings re-occupied</del></li> </ul>	To tie in with the change in the plan’s approach to the re-occupation of vacant dwellings.
39	Paragraph 6.20 c	<p>c. The Housing Context</p> <ul style="list-style-type: none"> <li>i) population and households</li> <li>ii) housing need</li> <li>iii) condition of housing stock</li> <li>iv) areas of low housing demand</li> <li>v) clearance activity</li> <li>vi) the development of urban regeneration initiatives</li> <li><b>vii) Vacancy rates</b></li> </ul>	To tie in with changes to the plan’s approach to vacant dwellings.

42	H1.1, Paragraph 6.26	<p>Account should also be taken of the potential supply of small sites – those with less than 0.4 hectares of land or ten dwellings – and windfall sites that are expected to become available during the period covered by the UDP. In line with PPG3, “Housing”, these allowances relate to previously developed land only.</p> <p>The Council has also made an allowance for the development of housing on sites where existing housing has been subject to clearance. The rate of on-site “build-back” will vary according to both the type of dwellings being cleared and the type of new housing being developed. Since it is likely that clearance will be predominantly of terraced houses and flats it is assumed that on average 60% of the original number of dwellings will be redeveloped on-site. As with the rate of clearance itself, this figure is likely to fluctuate on an annual and site-by-site basis. These additional allowances are set out in Table 4 below.</p>	<p>To balance the increased clearance rate, an additional supply needs to be added to allow for the redevelopment of cleared residential sites. It is assumed that the build-back rate will average out at 60%.</p>
43	H1.1, Paragraph 6.27	<p>To support its objective of making better use of existing housing stock, the Council has published an Empty Homes Strategy that aims to reduce the number of private homes left vacant for over 6 months by 63 a year. It is hoped that this will be achieved through re-occupation. It would, therefore, appear appropriate to allow for this planned reduction in the vacancy rate when calculating the Borough's potential supply of housing land. Table 4 sets out the allowances that should be taken into account when considering the future housing supply.</p> <p><del>Reducing vacancy levels can minimise the amount of land required for new dwellings. RPO13 makes it clear that the re-occupation of existing vacant stock can be viewed as a source of housing supply and count towards the annual housing requirement. Current vacancy levels in Oldham are 5.1% for the stock as a whole. Within the Housing Market Renewal Fund area of Oldham the vacancy level is 7.1%. RPO13 aims to reduce regional vacancy levels to 3%. The majority of vacant dwellings are in the private sector. Although clearance will help to reduce vacancy levels, it is preferable for dwellings to be reoccupied wherever possible and practicable. Strategies adopted through the Housing</del></p>	<p>To reflect the change in the plan's approach to vacancy rates and bringing the plan up to date with the HMR programme.</p>

		<p><del>Market Renewal Fund will fundamentally affect the number of dwellings that will be re-occupied. Although it is not yet possible to estimate the number of vacant properties which may come forward, as a matter of principle the reoccupation of dwellings that have been vacant for 6 months or more will be counted against the Council's annual housing requirement as set out in RPG13. The reoccupation of long-term vacant properties, and implications for housing land release, will therefore form part of the Council's annual housing land monitoring report.</del></p>

<p><b>OPEN ENVIRONMENT</b></p>			
76	<p>Introduction, Paragraph 11.9</p>	<p>Agricultural land is classified according to the extent to which its physical and chemical characteristics limit its use for food production. The best and most versatile agricultural land (grades 1, 2 and 3a) is that which is best suited to adapting to the changing needs of agriculture. <b>In 2004, the Government published 'Planning Policy Statement 7 (PPS7) Sustainable Development in Rural Areas'</b> One of the objectives of this statement is to promote sustainable patterns of development. To do this it discourages the development of 'greenfield' land, and, where such land must be used ensuring it is not used wastefully. <del>Revised national guidance on protecting agricultural land, contained in PPS7*, advises local planning authorities to look first at previously developed land and sites within existing urban areas, to determine whether there is a need to consider the development of greenfield land, including best and most versatile agricultural land, at all.</del> If the use of agricultural land is unavoidable to meet development needs, then poorer quality land should be used as a general rule, but agricultural land value should be weighed against other sustainability considerations (e.g. accessibility, infrastructure, biodiversity, landscape quality, etc). Thus a poor quality piece of land which has, for example, high biodiversity value may merit stronger protection than a better quality piece of land with no biodiversity value. This is significant for Oldham because most agricultural land in the Borough falls within the grades 3b, 4 and 5, reflecting the upland nature of the area. There may therefore be areas where the land has been well managed and contributes to the</p>	<p>PPG7 has been replaced by PPS7 Sustainable Development in Rural Areas.</p>

83	Paragraph 13.65	<p>The consumption of fossil fuels has led to problems on an international scale, namely global warming and climate change. The Government's draft UK Programme for Climate Change 2000 states that some climate change is now inevitable because greenhouse gases such as carbon dioxide have already accumulated in the atmosphere. The UK will be affected by rising sea levels, temperatures increases and more extreme weather, changes that will have an impact on health, lifestyle and on the environment and economy. A national target has been set that by 2010, 10% of the UK's electricity should be supplied from renewable sources, subject to the costs to consumers being acceptable. In 2000 this percentage figure stood at around 2.5%. This section focuses on the role of planning policies in determining applications for the development of plants that generate electricity and/or heat from renewable sources. Energy efficiency, which has an important role to play in reducing energy consumption and consequent emissions, is dealt with in the Design Section of the plan, particularly policies D1.1 and D1.2. Other planning policy responses to climate change are found in, for example, policy NR2.4 Surface Water Run-off and Sustainability, and in the plan's approach to public transport accessibility in the location of new development (policy T2).</p>	To explain why this section focuses on renewable energy and to meet objections.

At present there are two main sources of information on renewable energy resources in Oldham: the Lancashire and Yorkshire Renewable Energy Planning Study (LYREPS) carried out by Terence O'Rourke plc and the Energy Technology Support Unit and published in 1999; and the North West of England's regional renewable energy study from March 2001. 87	NR3, Paragraph 13.72	<p>National planning policy for renewable energy contained in Planning Policy Statement 22 requires local planning authorities to set out criteria that will be applied in assessing applications for planning permission for renewable energy developments. The following detailed policies set out first, broad criteria for all renewable energy developments, and secondly, because of their particular characteristics in relation to location, specific additional criteria for the development of wind turbines and, thirdly, a policy which requires major new developments to produce some of their energy requirements from renewable sources. Renewable energy developments can have an impact on a wide range of issues. The following policies therefore need to be read in conjunction with other</p>	To reflect Planning Policy Statement 22.

89	NR3.1, Paragraph 13.73	<p>This policy is intended to apply to all renewable energy technologies <del>including</del> although wind turbines, which have specific locational requirements, are <b>also</b> dealt with in the following policy NR3.2. The Council supports the use of renewable energy resources to provide energy, and Combined Heat and Power schemes which utilise the heat arising from energy production, subject to other UDP policy considerations. <del>Apart from their obvious role in reducing greenhouse gas emissions, resources such as biomass* and wind farms may also provide opportunities to diversify the rural economy. (Modified version of this sentence is moved to para. 13.75)</del> In the course of developing a renewable energy strategy for Oldham, renewable resources within the Borough, which have the potential to contribute to energy production, have been identified. The most likely technologies to be feasible in Oldham, to which this policy would apply are:</p> <ul style="list-style-type: none"> <li>· small scale hydro (energy obtained from water bodies and rivers);</li> <li>· solar power (energy obtained through passive solar design of buildings, solar water heating systems or photovoltaic cells);</li> <li>· <b>onshore wind power;</b></li> </ul>	To clarify that policy NR3.1 also relates to wind power and ensure that it is consistent with PPS22.

This resource is currently being exploited within the Borough at Greengate, Chadderton and is due to commence shortly at High Moor Quarry. 90	NR3.1, Paragraph 13.74	<p><u>Such technologies can be used at different scales ranging from schemes which serve one property to those which contribute to the national grid. Renewable resources can be used to supply Combined Heat and Power Schemes (CHP) to serve groups of properties, including housing schemes. Energy from municipal waste is specifically excluded from this policy as waste management decisions are influenced by the Regional Waste Strategy. It is acknowledged that technologies are constantly being researched and developed. Developments utilising other technologies, not presently viable, but which become viable during the life of the plan would be assessed against criteria <del>4-f</del> 4-g.</u></p>	To reflect change to policy.
91	NR3.1, Paragraph 13.76	<p><u>13.76 The Council recognises the global benefits of renewable energy and, therefore, takes a generally positive approach to such development, but it also acknowledges the need to balance these benefits with the potential impacts on local health and environments. This includes impacts on designated nature conservation or archaeological sites, as well as listed buildings and conservation areas. It also includes the impacts of associated infrastructure as well as the turbines themselves, for example access tracks and grid connections. Renewable energy resources, eg. hydro, can usually only be developed where they occur and some degree of impact may be unavoidable, however, this may be considered acceptable because it is minor, because mitigation measures may be put in place,</u></p>	To clarify criterion d of policy NR3.1 and meet objections.

A possible exception to this would be where a Combined Heat and Power scheme necessitates its location close to the user of the heat and/or energy, in which case the Council would expect the applicant to demonstrate that the benefits of such a scheme outweigh the transportation costs involved.</u></p>	
		<p><u>Because many renewable technologies can only be developed in areas where the resource is found, it is likely that some such developments would be located in Green Belt locations. In such locations there is a general presumption against inappropriate development which should not be approved, except in very special circumstances. Planning Policy Guidance 2 on Green Belts states that 'Very special circumstances to justify inappropriate development will not exist unless the harm by reason of inappropriateness, and any other harm, is clearly outweighed by other considerations'. <b>Developers will need to demonstrate very special circumstances that clearly outweigh any harm by reason of inappropriateness and any other harm, if projects are to proceed. The Council, in considering such proposals, will weigh the benefits of the energy produced against any harm to the Green Belt, and may consider such benefits to amount to exceptional circumstances which merit approval of what would otherwise be inappropriate development. Nonetheless, PPS22 states that the wider environmental and economic benefits of all proposals for renewable energy projects are material considerations that should be given significant weight in determining whether proposals should be granted planning permission. Nonetheless, they will be carefully assessed against the criteria to ensure that the benefits of the proposal merit their location outside the area of search.</del> The characteristics of wind energy developments are such that additional, technology-specific criteria are needed, against which to consider planning applications. For example, in addition to the landscape character impacts which would be considered under policy NR3.1, there may be the potential for proposed developments to have an impact on the skyline. The likelihood or extent of any such impacts may depend on the scale and siting of the proposed development and the nature of the landscape in which it is located.</p>

It is intended to publish more detailed Supplementary Planning Guidance on key sites in the future. Potential developers should contact the Strategic Planning Team for further advice on policy requirements.</u></p> <p><b><u>H1.1.6, St. Mary’s, Oldham, 2.56 ha, <del>112</del> 180 dwellings, PDL</u></b></p> <p><u>The site occupies a prominent location on rising ground at the northern edge of Oldham Town</u></p>	Update of position as at 31 March 2004.

Centre and forms part of the St. Mary's Estate. Formerly consisting of deck-access flats and bedsits, the site is now cleared of all buildings and awaits development. The site occupies a highly visible and accessible location, close to local facilities and public transport options. A planning brief has been prepared to guide the development of the site and the Council has entered into a development partnership with Gleeson Homes and Portico Housing Association.

~~**H1.1.11, Aeorn Mill, Lees, 0.23 ha, 35 dwellings, PDL**~~

~~Aeorn Mill is a Grade II Listed Building located within Lees District Centre and adjacent to a mix of new residential development and industrial and commercial users. The current occupier is seeking to relocate within Oldham. This will create the opportunity to develop a high quality conversion close to local services and a Quality Bus Corridor.~~

~~**H1.1.13, Coverhill Rd, Saddleworth, 0.58 ha, 11 dwellings, GF**~~

~~This site has good public transport links and is close to local shops. The site provides an opportunity to develop upper market houses. A committed sum for the enhancement of recreation facilities will be required.~~

**H1.2.9, Springhey Mill, Oldham, 0.39 ha, 12 15 dwellings, PDL**

This underused mill and car wash lies on an important through route connecting Oldham Town Centre and East Oldham. The site is also close to a range of local facilities. The site is within 250m of a former landfill site. It is particularly important to note that the site is located at the entrance to the Housing Market Renewal area on approaching from the east along Huddersfield Road. The redevelopment of this site therefore offers the potential for the creation of a high profile gateway. Consequently, the Council will wish to consider, with prospective developers, how the site can be developed in such a way that contributes to meeting HMRF aims and objectives.

~~**H1.2.8 H1.1.23, Pretoria Road, Oldham, 0.46 ha, 14 dwellings, PDL**~~

~~This site is close to a Quality Bus Corridor and local services. Currently in use as a scrap yard, this proposal offers the opportunity to improve the local environment. It is particularly important to note that the site is located within the Housing Market Renewal Fund boundary. Consequently, the~~

Council will wish to consider, with prospective developers, how this site can be developed on a way that contributes to meeting HMRF aims and objectives

~~H1.2.14~~ **H1.1.24 Sandy Mill, Royton, 1.59 ha, 64 85 dwellings, PDL**

This underused mill and adjacent commercial uses ~~is~~ lie close to good public transport links and basic services. ~~In redeveloping the site, developers should have regard to the proximity of adjacent industrial premises.~~ This allocation therefore offers the opportunity for a comprehensive redevelopment of this highly visible and sustainably located site. The Council will therefore expect to see a high quality treatment of the Oldham Road frontage, commensurate with its importance and prominence as a gateway to the Borough. The Council will negotiate for the provision of affordable housing as part of any redevelopment. The site contains one former landfill site and is within 250m of three others.

~~H1.2.15~~ **H1.1.25 Jowett Street, Oldham, 0.66 ha, 26 dwellings, PDL**

This employment site lies within a residential area close to public transport and basic services. It is particularly important to note that the site is located within the Housing Market Renewal Fund boundary and within the Derker Intervention Area. Consequently, the Council will wish to consider, with prospective developers, how this site can be developed in a way that contributes to HMRF aims and objectives.

**H1.1.26 Spencer Street, Oldham, 3.00 ha, 150 dwellings, PDL**

This site is located within the Werneth/Freehold first wave intervention area of the Housing Market Renewal initiative. The UDP allocation, proposing residential development, reflects the identification of the site for this use in the HMR Werneth/Freehold Master Plan. This is an important site occupying a key location within the first wave area, providing access to a range of public transport options and basic services. The Council is keen to ensure that any redevelopment is of a high quality and provides a significant contribution to HMRF aims and objectives.

**H1.1.27 Hartford Mill/Land off Milne Street, Oldham, 2.84 ha, 160 dwellings**

This site is located within the Housing Market Renewal boundary and forms part of the

Werneth/Freefold first wave Intervention Area. The site comprises the listed Hartford Mill and adjacent commercial uses off Milne Street. The Werneth/Freehold Master Plan proposes the conversion of the listed mill to apartments, but recognises that a residential conversion scheme could also incorporate community and employment uses. As with the Spencer Street allocation, the site lies in a key location within the area, providing access to a range of public transport options and basic services. The Council is keen to ensure that any redevelopment is of a high quality and provides a significant contribution to HMR aims and objectives.

## PHASE 2 ALLOCATED HOUSING SITES – ADDITIONAL INFORMATION

### ~~H1.2.8, Pretoria Road, Oldham, 0.46 ha, 14 dwellings, PDL~~

~~This site is close to a Quality Bus Corridor and local services. Currently in use as a setap yard, this proposal offers the opportunity to improve the local environment.~~

*Note – site moved to phase 1.*

### H1.2.13 Holden Fold Lane, Royton, 0.51 0.40 ha, 15 12 dwellings, PDL

This site consists of a collection of buildings currently in employment use. However owing to the close proximity of existing and new housing and the restricted nature of the access, it is considered that this site could accommodate a small-scale residential development. The site contains one former landfill site and is within 250m of two others.

### ~~H1.2.14 Sandy Mill, Royton, 1.59 ha, 64 dwellings, PDL~~

~~This underused mill is close to good public transport links and basic services. In redeveloping the site, developers should have regard to the proximity of adjacent industrial premises. The site contains one former landfill site and is within 250m of three others.~~

*Note - Site moved to phase 1*

### ~~H1.2.15 Jowett Street, Oldham, 0.66 ha, 26 dwellings, PDL~~

~~This employment site lies within a residential area close to public transport and basic services. It is particularly important to note that the site is located within the Housing Market Renewal Fund~~

~~boundary and within the Derker Intervention Area. Consequently, the Council will wish to consider, with prospective developers, how this site can be developed in a way that contributes to HMRF aims and objectives.~~

*Note – site moved to phase 1.*

**~~M4 Huddersfield Road/Dunkerley Street, 2.61 ha, 50 dwellings, PDI~~**

~~This large site lies within the Huddersfield Road District Centre and represents an important opportunity for a comprehensive redevelopment in a highly sustainable location. The site includes a mixture of employment uses including an abattoir. It contains one former landfill site and is within 250m of two others. The site also includes an important local landmark Grade II Listed Building known as “Hill Stores” and which the Council view as a potential “centre piece” development opportunity with the potential for a high quality conversion opportunity for a range of uses. It is particularly important to note that the site is located within the Housing Market Renewal Fund boundary and close to the Derker Intervention Area. Consequently, the Council will wish to consider, with prospective developers, how this site can be developed in a way that contributes to HMRF aims and objectives. The mix of uses permitted are office, retail, residential and other uses that accord with policy S1.6 in the Retail and Leisure Development section.~~

*Note – site moved to phase 1.*
