Local Risk Assessments

The Gambling Commission (the Commission) introduced new provisions in its social responsibility code within the Licence Conditions and Codes of Practice (LCCP), which require gambling operators to assess the local risks to the licensing objectives posed by the provision of gambling facilities at each of their premises, and to have policies, procedures and control measures to mitigate those risks. This change in national policy is intended to provide a well evidenced and transparent approach to considering and implementing measures to address the risks associated with gambling.

Such risk assessments are required from new applicants, and from existing premises licensees seeking to vary a licence and are to be presented to the licensing authority upon application. The code requires all operators of; Casino's, AGC's, Bingo Premises, FEC's, Betting shops and remote betting intermediaries to assess local risks to the licensing objectives, and to have policies, procedures and control measures in place to mitigate those risks.

Operators are required by the SR code to make the risk assessment available to licensing authorities when an application is submitted either for new premises licence or variation of a premises licence, or otherwise on request, and this will form part of the council's inspection regime and may be requested when officers are investigating complaints.
