

Bunting template

Step 1 Print out onto A4 or A3 card or paper. Make sure that you click the scale option so it fits your paper size.

Print multiple copies to have enough to make your bunting long enough.

Step 2 Cut out each pennant.

Step 3 Cut along the dashed lines so that you can insert the string.

You can also make bright coloured fabric bunting. Cut out a card template, place it on a piece of material, draw around it and cut out.
