WRITTEN STATEMENT OF ACTION

Oldham's Vision for Children and Young People with SEND

Oldham's vision is to be a place where children and young people will thrive. This will be demonstrated by children and young people with SEND achieving well in their early years, at school and in further education, finding employment, leading happy, healthy and fulfilled lives and having choice and control over their support.

Senior Leadership Commitment Statement: Our Vision

Oldham's journey is one of transformational change for children and young people with SEND and their parents/carers. Senior Leaders from Oldham Council, Oldham Clinical Commissioning Group, all local education settings together with parents /carers, children and young people are determined that outcomes for children and young people with SEND improve. Our vision is to create a place where children and young people can thrive. This will be demonstrated by children and young people with SEND achieving well in their early years, at school and in further education, finding employment, leading happy, healthy and fulfilled lives and having choice and control over their support. The evidence for this will be;

- Parents/carers, children and young people with SEND tell us the system has improved and the difference this has made;
- Oldham is fully compliant with the Children and Families Act 2014 and the SEND Code of Practice 2015;
- Effective leadership and joint partnership to co-produce, deliver and evaluate the SEND reforms;
- An EHCP pathway process across Oldham resulting in quality outcomes of children and young people with SEND is developed and delivered;
- Oldham has safe and effective home to school transport;
- The annual attainment and achievement of children and young people with SEND improves 1% faster (year on year) than the national average;
- Children and young people with SEND reach their full potential based on individual aspiration and need.

There are a number of golden threads which underpin how services for children and young people with SEND and their parents/carers will improve in Oldham. These include;

- Oldham adopting a culture and practice that children, young people and their families only have to tell their story once;
- Ensuring that SEND is everybody's responsibility;
- Children and young people always being at the heart of what we do, with the highest aspirations for all;
- That we co-produce with children, young people, parents and carers and other stakeholders;
- That we jointly develop a competent, capable workforce fully resourced to meet needs across Oldham's SEND system.

Our Journey so far

As a first step in reasserting the direction of travel a Transformation Assurance Board was established in November 2017 with senior leadership from the LA and CCG together with the Chief Executive of POINT, the local Parent Carer Forum. This Board identified that much of the local response to the SEND agenda required significant improvement. It was also recognised though there were aspects of the current offer which did meet identified needs and much good work was already in train - the impact has yet to be measured. The Board utilised the energy generated from stakeholders by the inspection to ensure that all facets of the local SEND offer are scrutinised and challenged to improve, irrespective of inspection findings. Harnessing this energy together with making best use of additional resourcing from the LA and CCG will be key to improving outcomes for children and young people.

In order to address the issues raised by the inspection concerning senior leadership a new SEND Partnership Board has been developed to be the main governance board focussed solely on SEND. The Board will meet bi-monthly and have at its core the senior leaders from the LA and CCG. It is chaired by the Lead Member for Education and Culture, with the deputy chair being the Chief Executive of POINT, and has 2 parents as representatives. Representatives of the Oldham Alliance of Primary Heads and Principals and Oldham Association of Secondary Heads and Principals are members. The SEND Partnership Board will report through the Oldham Best Start in Life Board (the Children's Trust) to the Oldham Health and Wellbeing Board who hold statutory accountability. The SEND Partnership Board will be responsible for auditing the delivery of this Written Statement of Action.

Within the Greater Manchester Combined Authority there will be strong links between the Oldham Health and Wellbeing Board and its Greater Manchester equivalent giving the opportunity for SEND issues such as employment strategies and pathways for young people to be shared collaboratively across the Greater Manchester economic and travel to work area. Other pan Great Manchester strategies will be incorporated into Oldham's SEND Strategy as they are developed.

The SEND Management Group will be chaired by Oldham Council's Interim Director of Children's Services and the Deputy Chair will be the CCG Governing Body Executive Nurse and will oversee, co-ordinate and hold to account the work of the Task & Finish (T&F) Workstreams. The Board and each T&F groups has up to 2 parent representatives. Underpinning the governance framework will be a Young People's Challenge Group made up of representatives from the Children in Care Council, Barrier Breakers and the Youth Council feeding in to both the Partnership Board and Management Group thus ensuring the voice of children and young people is heard and acted upon. The Management Group will also have the key responsibility for developing an area wide communication strategy and an organisational strategy.

Written Statement of Action: Plan Overview

The Written Statement of Action (WSOA) sits alongside Oldham's developing SEND Strategy which will further detail and drive all activity in Oldham to effectively deliver the SEND agenda. The WSOA is mapped against the five areas of significant weakness identified by the inspection and details how the Oldham Local Area intends to ensure;

- Oldham is fully compliant with the Children and Families Act 2014 and the spirit of the SEND Code of Practice 2015;
- Effective leadership and joint partnership in leading, developing and evaluating the SEND reforms;
- A fully functioning and legally compliant EHCP pathway process across Oldham resulting in quality outcomes of children and young people with SEND is developed and delivered;
- Oldham has safe and effective home to school transport;
- The annual attainment and achievement of children and young people with SEND improves 1% faster (year on year) than the national average.

The WSOA, SEND Strategy and Governance Relationship Map attached below is the co-produced product of a significant number of meetings involving parent/carers, LA and CCG Officers. It has been regularly influenced by senior leaders and was a central point of discussion at a recent Oldham SEND co-production event held on 25 January 2018 where over 100 parents and professionals from Oldham gave their views on this and other aspects of the SEND agenda. The map shows the interrelationship between the significant areas for improvement identified by the Inspection, our evolving shared vision for children and young people with SEND in Oldham, the intended governance framework for ensuring delivery and the Task and Finish (T&F) Workstreams identified as key co-production opportunities and challenges.

The WSOA and the SEND Strategy Plan will be monitored on a bi-monthly basis with a highlight report to each meeting of the SEND Partnership Board and RAG rated using the key below. Actions within the plan are allocated to individual Task and Finish Workstreams. There will be a report to Local Authority Executive Management Team and Health and Wellbeing Board at each meeting with routine reporting through Oldham Clinical Commissioning Group Governing Body Governance Framework (this arrangement may change with the establishment of the Integrated Care Organisation (ICO) between Oldham Council and Oldham CCG from 1st April 2018).

Within this plan we have divided the challenge into three time periods and used the following timeline:

Stabilise: (October 2017 – February 2018) Analyse, diagnose, identify and sequence priorities prior to publication of our written action plan. This will also encompass our quick wins to evidence what we have done so far;

Repair and rebuild: (March 2018 – December 2018) Implement clear decision making, transparent performance reporting, challenge and support, cultural change, restorative, defining expectations, active implementation and review, developing and empowering staff, assurance, listening to feedback, co-produced repair and rebuild activity;

Self-sustaining improvement: (January 2019 – March 2020) Ensure consistent system-wide delivery to meet need, embedded performance culture, assurance and an accountable, responsive, proactive, learning culture driving continuous improvement.

Significant Weakness	Strategic Objectives	Oldham's vision is to be a place where children and young people can thrive. This will be demonstrated by children and young people with SEND achieving well in their early years, at school and in further education, finding employment, leading happy, healthy and fulfilled lives and having choice and control over their support. Implementation and delivery of this vision will also evidence Oldham's Written Statement of Action in response to Ofsted and CQC's identified areas of significant weakness. The components of Oldham's successful system for SEND will include;																											
		A person-centred and joined-up approach to identify and meet the needs of children, young people and their families					Good educational outcomes and fulfilled lives, supported by high quality settings and services					Engagement and participation of young people and families so they have greater choice and influence.					A clear understanding of what support, services and provision are available and how to raise concerns or seek redress when there are concerns					Use of effective practice, data and wider intelligence and independent assessment to drive improvement					Clearly-defined and understood roles, responsibilities and accountability
