

Test yourself for COVID-19 twice a week

Up to 1 in 3 people are asymptomatic - they show no signs of having COVID-19. Testing yourself regularly helps stop the virus spreading.

Testing

Pick up your pack of test kits at school. Testing is simple and quick - you can do it at home and get the result in 30 minutes. Test yourself twice a week, or every 3 to 4 days.

Report your result

You should report your result immediately at www.gov.uk/reportcovid19-result. Report your result, whatever it is, to your school.
