Appendix 12: IA of Creating a Better and Beautiful Oldham

Contents

Policy D1 – A Design-Led Approach for Residential-Led & Mixed-Use Development	2
Policy D2 – A Design Led Approach to Non-Residential, Commercial and Employment Developments	15
Policy D3 – Design Scrutiny	28
Policy D4 – Creating Better Views, Gateways and Taller Buildings	41
Policy D5 – Improving the Quality of Advertisements and Signage in Oldham.....	52
Policy D6 – Creating a Better Realm in Oldham	63
Policy D7 – Development within the curtilage of a dwellinghouse	75

Policy D1 – A Design-Led Approach for Residential-Led & Mixed-Use Development

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
1. To protect, conserve and enhance a high quality multifunctional green infrastructure network, including biodiversity and geodiversity that is ecologically connected	+	+	++	Permanent	Local	<p>It is considered that the policy and supporting text will have a positive impact on this objective, due to the requirement for a design-led approach and its linkages to providing for green infrastructure in new development.</p> <p>In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this policy.</p>	No mitigation needed. Local Plan policies N1 to N3 on nature also addresses Green Infrastructure. In addition, PFE Greener chapter also addresses objective.	None
2. To promote quality and accessible open spaces	++	++	++	Permanent	Local	The policy includes a specific requirement for inclusive places and spaces in new development and also includes requirements for open spaces to be accessible.	No mitigation needed. Local Plan policies CO1 'Protection of Existing Open Spaces' and CO2 'New and Enhanced Open Spaces' address open space.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
							In addition, PfE Policies JP-G2 'Green Infrastructure Network' and JP-P7 'Sport and Recreation' address this objective.	
3. To protect and enhance the character and appearance of landscapes and townscapes, maintaining and strengthening Local distinctiveness and sense of place	++	++	++	Permanent	Local	The policy includes a specific reference to a design-led approach which and a criteria requiring developments to respond to the existing character of a place by identifying the special and valued features and characteristics that are unique to the locality	No mitigation needed. PfE policy JP-G1 'Landscape Character' and JP-P1 'Sustainable Places' addresses this objective.	None
4. To protect, conserve and enhance the historic environment, heritage assets	++	++	++	Permanent	Local	The policy includes a specific reference for a design-led approach in order to deliver buildings and spaces that are appropriate, in terms of their form, massing and height, for the surrounding context and	No mitigation needed. Policies HE1 to HE5 of the Local Plan and PfE Policies JP-P1 'Sustainable Places' and JP-P2 'Heritage'	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
and their setting						positively respond to local distinctiveness and character.	also addresses the historic environment.	
5. To promote high quality, beautiful design that meets Local design expectations	++	++	++	Permanent	Local	The policy includes a specific reference to a design-led approach which protects and enhances townscape and landscapes, whilst strengthening local distinctiveness and sense of place with a number of criteria.	No mitigation needed. Policies D2 to D7 of the Local Plan and policies OTC3 'Creating a Better Public Realm for Oldham Town Centre' address design. PfE Policy JP-P1 'Sustainable Places' also addresses design.	None
6. To ensure land and buildings are used in an effective and efficient manner, maximising the use of brownfield land	++	++	++	Permanent	Local	The design-led approach is specifically stated so that land and buildings are used in an effective and efficient manner, maximising the use of brownfield land.	No mitigation needed. Policy H3 'Density of New Housing' of the Local Plan also address objective. In addition, PfE Policies Policy JP-S1 'Sustainable Places' and Policy JP-H4 also addresses efficient use of land.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
7. To ensure appropriate provision of supporting infrastructure to meet development needs	+	+	++	Permanent	Cross-boundary	The policy would have a minor benefit associated with this objective as the design of schemes would be done with a requirement to ensure that the supporting infrastructure, such as roads, landscaping etc are all part of a design-led approach.	No mitigation needed. There are several policies within PfE and the Local Plan that address infrastructure.	None
8. To improve health and well-being and reduce health inequalities	+	+	++	Permanent	Local	It is considered that the policy by ensuring a design-led approach and its requirements for street-based layouts and appropriate densities will ensure that new developments are more walkable and accessible by active modes of transport, thus improving health and wellbeing and reducing health inequalities.	No mitigation needed. PfE Policy JP-P6 'Health' and policies within the Local Plan including CO7 'Health Impact Assessments in New Development', CO8 on 'Hot Food Takeaways' and policies on green infrastructure, including OTC1 'Oldham Town Centre' and OTC4 'Green Infrastructure within and around Oldham Town Centre' address	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
							health and well-being.	
9. To minimise and mitigate against flood risk and adapt to the effects of flood risk	+	+	++	Permanent	Local	The policy will have an indirect benefit on this objective by requiring a design-led approach and appropriate layout etc, thus allowing the possibility of including more green infrastructure in new developments to help alleviate surface water flooding etc.	No mitigation needed. PfE Policy JP—S5 'Flood Risk and the Water Environment' and policies CC3 'Managing Flood Risk' and CC4 'Sustainable Drainage – Foul and Surface Water' also addresses flood risk.	None
10. To protect and improve the quality of water bodies and river corridors and availability of water resources	--	--	--	N/A	N/A	It is considered that the policy does not, in itself, protect and improve the quality of water bodies and river corridors.	No mitigation needed. PfE Policy JP—S5 'Flood Risk and the Water Environment' and policies within the Local Plan including CC5 'Water Efficiency' and CC6 'Groundwater Source Protection Zones' also address impacts on water quality.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
11. To protect and improve soil quality, best and most versatile agricultural land, and remediate contaminated land	--	--	--	N/A	N/A	It is considered that the policy does not, in itself, protect and improve soil quality, best and most versatile agricultural land and remediate contaminated land.	No mitigation needed. PfE policies JP-G9 'A Net Enhancement of Biodiversity and Geodiversity' and policy LE2 'Ground Conditions and Contaminated Land' of the Local Plan also addresses soil and contaminated land.	None
12. To minimise energy use, promote energy efficiency and the use of renewable and low carbon energy	--	--	--	N/A	N/A	It is considered that the policy does not, in itself, minimise energy use, promote energy efficiency and the use of renewable and low carbon energy.	PfE policies JP-S2 'Carbon and Energy', JP-S3 'Heat and Energy Networks' and JP-P1 'Sustainable Places' also addresses energy in addition to Local Plan policies CC1 'Sustainable Construction, Energy Efficiency and Retrofitting' and CC2 'Renewable and Low Carbon Energy'.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
13. To ensure communities and infrastructure are resilient to the effects of climate change	+	+	++	Permanent	Cross-boundary	The policy has an indirect positive impact on this objective by virtue of requiring a design-led approach and appropriate street based layouts and effective communal space, thus allowing for more green infrastructure to be included in development – especially in areas of high public transport accessibility.	No mitigation needed. PfE includes policies which addresses this objective including Policy JP-P1 'Sustainable Places', JP-G2 'Green Infrastructure Network' and JP-S5 'Flood Risk and the Water Environment'. Within the Local Plan policies that address this objective include CC3 'Managing Flood Risk' and CC4 'Sustainable Drainage – Foul and Surface Water' and N3 'Enhancing Green Infrastructure through development'.	None
14. To protect and improve air quality	+	+	+	N/A	N/A	Criteria 2 of the policy includes a requirement for new developments to facilitate active travel and public	No mitigation needed. PfE Policy JP-S6 'Clean Air' and Policy LE3 'Air	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
						transport, which could in turn, have an impact on improving air quality.	Quality' of the Local Plan also addresses air quality.	
15. To protect and improve Local environmental quality	++	++	++	Permanent	Local	The policy specifically requires development to ensure that they are inclusive and that buildings and spaces are orientated so that they support active modes of transport and support active lifestyles.	No mitigation needed. PfE Policy JP-P1 'Sustainable Places' and policies in the Protecting Our Local Environment section of the Local Plan also addresses environmental quality.	None
16. To promote an integrated and improved transport system that provides sustainable transport choices and improves connectivity, including the walking and cycling network and the	++	++	++	Permanent	Cross-boundary	The policy requires developments to be street based with clearly defined public and private environments, which encourage active travel with safe, convenient and inclusive pedestrian and cycling routes.	No mitigation needed. PfE 'Connected Places' chapter includes policies alongside Local Plan policies T1-T3 and design policies that address promoting sustainable transport choices.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
protection of the PROW Network								
17. To promote accessibility to key services and reduce the need to travel	+	++	++	Permanent	Cross-boundary	The policy would have a positive impact on this objective by setting out a requirement for a street based approach to layout with convenient, safe and inclusive pedestrian and cycling routes, thus creating more walkable and denser environments, which could allow for more uses to agglomerate alongside each other and therefore reduce the need to travel by car.	No mitigation needed. PfE Policy JP-C1 'An integrated Network' and Local Plan policies CO9 'Creating Sustainable and Accessible Communities', C2 'Local Services and Facilities' and H1 'Delivering a Diverse Housing Offer' can help influence meeting this objective.	None
18. To promote regeneration and reduce levels of deprivation and disparity	++	++	++	Permanent	Cross-boundary	The policy requires a designed approach to site design, thus ensuring that development are designed at an appropriate density and not out of character with the existing townscape, and ensuring new development is inclusively designed, thus	No mitigation needed. All the policies within PfE and the Local Plan seek to aid regeneration and tackle reducing deprivation and disparity.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
						promoting high quality regeneration and providing more dwellings per-hectare in areas of high public transport accessibility.		
19. To promote sustainable economic growth and job creation	--	--	--	N/A	N/A	It is considered that the policy does not, in itself, promote sustainable economic growth and job creation.	No mitigation needed. PfE policy JP-J1 'Supporting Long-Term Economic Growth' and JP-J2 'Employment Sites and Premises' and policies within the Economy and Employment section of the Local Plan also addresses economic growth.	None
20. To protect and enhance the vitality and viability of Oldham Town Centre and the centres of Chadderton, Failsworth, Hill	+	+	++	Permanent	Local	It is considered that the policy would have a net positive impact on this objective as by ensuring a design-led approach, higher density development will be located in the centres of Oldham etc, thus increasing the amount of people living within them and	No mitigation needed. PfE policy JP-P4 'New Retail and Leisure Uses in Town Centres', JP-H4 'Density of New Housing', JP-P3 'Cultural Facilities' and JP-P2 'Heritage'	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA

Stores, Lees, Royton, Shaw and Uppermill						helping to protect and enhance the vitality of centres.	and Local Plan policies C1 'Our Centres', C3 'Retail and Leisure Impact Assessments and Sequential Tests' and C4 'Changes of use and redevelopment within the borough's centres' as well as the other policies for Oldham Town centre and housing supports this objective.	
21. To promote sustainable tourism and leisure	--	--	--	N/A	N/A	The policy will not influence this IA objective.	No mitigation needed. PfE Policy JP-P3 'Cultural Facilities' and JP-P4 'New Retail and Leisure Uses in Town Centres' and Local Plan Policies OTC1, C2, CO4 and TM1 as well as other policies also	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
							addresses tourism and leisure.	
22. To improve education attainment and skill levels	--	--	--	N/A	N/A	The policy will not influence this IA objective.	No mitigation needed. PfE Policy JP-P5 'Education, Skills and Knowledge' and Local Plan policies OTC1 'Oldham Town Centre', CO5 'Education and Skills' and CO6 'Securing Educational Places through New Residential Development' address this objective.	None
23. To provide a sustainable housing land supply and an appropriate mix of sizes, types and tenures to meet Local housing needs	+	+	++	Permanent	Local	The policy would have a benefit on this objective as it includes a requirement for inclusive design and the orientation of dwellings which could help diversify the housing mix that is already there.	No mitigation needed. Policies within PfE and the Local Plan on housing address this objective.	None

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
24. To ensure the prudent use and sustainable management of minerals	--	--	--	N/A	N/A	The policy will not influence this IA objective.	No mitigation needed. The Minerals DPD addresses this.	None
25. To manage waste sustainably in line with the waste hierarchy	--	--	--	N/A	N/A	The policy will not influence this IA objective.	No mitigation needed. The Waste DPD addresses this.	None
26. To promote mixed, balanced and inclusive sustainable communities	++	++	++	Permanent	Local	It is considered that the proposal will have a positive impact on this objective due to the requirement to ensure inclusive design approaches and the various requirements in relation to the design of streets, building orientation, open spaces and usability and ongoing maintenance.	No mitigation needed. Policies within PfE and the Local Plan such as those on housing mix and tenure, communities and design aim to address this objective.	None

The policy scored a mixture of positives, significantly positives and neutrals. No mitigation or enhancement to the policy was made as a result of the IA.

In terms of the HRA the policy has been screened out. No Likely Significant Effect on any European Site is anticipated from the operation of this Policy.

Policy D2 – A Design Led Approach to Non-Residential, Commercial and Employment Developments

IA Objective	Score	Score	Score	Effects are Temporary or Permanent	Scale	Justification	Mitigation / enhancement	Changes made as a result of the IA
	ST < 5 years	MT 5-10 years	LT 10+ years		Local or Cross Boundary			
1. To protect, conserve and enhance a high quality multifunctional green infrastructure network, including biodiversity and geodiversity that is ecologically connected	+	+	++	Permanent	Local	<p>It is considered that the policy will have an indirect positive impact on this objective, due to the requirement for a design-led approach and its linkages to providing for green infrastructure in new development.</p> <p>In terms of the HRA the policy has been screened out.
