Subject: Consultation on Saddleworth Neighbourhood Plan - crime and community safety

Dear Sir/Madam

Please see below my comments on the Saddleworth Neighbourhood Plan which is currently open for consultation.

My feedback is on crime and community safety. I note that the police have been consulted on the plan and a brief reference is also made to community safety. I would have expected to see greater inclusion of the importance to policing and community safety across Saddleworth within the plan and hope there is still opportunity to ensure that this is included.

There are many excellent examples to draw on including the policing plan and also the well established interagency work between the police and various agencies - health, education, environmental services and community members etc across Saddleworth which could usefully reassure the reader that this is an active integral part of Saddleworth making it a safe place to live and work.

Regards,

Karen Williams
