Subject: Oldham Local Plan Examination – written statements from Graeme Moore (Respondent 020) – Matters 1, 7 and 9

Dear Tony ,

Please find attached my written statements in response to the Inspectors' Matters, Issues and Questions of 20 October 2026:

- Matter 7 – Questions 7.5 and 7.6, and Question 7.14 for Policy T3 only
- Matter 9 – Questions 9.1 to 9.3, and Question 9.22 for Policy D1 only

I am submitting these in a personal capacity. They supplement my Regulation 19 representations of March 2026 (references OPP264 and OPP265). I am not asking to speak at the hearings, so I understand the 19 November deadline applies.

Use of artificial intelligence
In line with the Planning Inspectorate's guidance on the use of AI in casework evidence, I confirm that I used an AI assistant (Claude, from Anthropic) in preparing these statements. It was used to help edit the text, and analyse source documents, to test my arguments and check them for inconsistency. The positions and proposed modifications are my own. I have checked the quotations and references against the source documents, including the National Planning Policy Framework paragraph numbers against the 2021 and December 2024 texts, and I have rechecked the figures and arithmetic. I am responsible for what the statements say.

Please let me know if anything further is needed.

Kind regards,

Graeme Moore BA(hons), Dip TP, MA (Urban Design)
Town Planner / Urban Designer & avid Newcastle United supporter
