

21 June 2011

Six Industrial Units

- A planning application (reference PA/59408/11) was submitted earlier this year for the extension of time limit to a previously approved planning application (PA/51737/06) for the erection of six industrial units (for B1, B2 and B8 uses).
- The area of land the renewal planning application relates to is not located within the area known as Foxdenton business and employment area in the Joint DPD.
- The renewal planning application relates to a business and industry allocation in the adopted UDP (reference B1.1.10). The principle of that renewal planning application is in line with the policy in the adopted UDP.
- In the Joint DPD, the UDP business and industry policy and allocations have been 'saved' and will be reviewed as part of the Site Allocations DPD.
- The renewal planning application was approved as recommended subject to a Section 106 at Planning Committee on 2 June 2011.
